LaFollette Reads The Daily Worker

By J. LOUIS ENGDAHL.

Senator Robert Marion LaFoliatte reads the DAILY. WORKER. He showed this very clearly in his recent statement issued attacking the June 17th Convention of all class Farmer-Labor forces in the United States. He quoted extensively from the bolumns of the DAILY WORKER, only to

represent its position.

LaFoliette's attack brought to the attention of millions vorkera, for the first time, that the DAILY WORKER is being published in Chicago.

Millions Learn of "The Daily"

Millions of workers have heard of the DAILY WORKER because the capitalist press generally over the land, that direculates tens of millions of copies daily, published LaFolistrés attack in full; in many cases with favorable comment. But these same yellow dailies, almost without exception, for the workers of the workers party. They refused to publish the reply of the Workers Party. They refused to give many access to the numerical states of the workers and the workers are the same of the workers and the workers are the same of the workers and the workers are the same of the workers are the workers are

refused to publish the reply of the Workers Party. They re-fused to give space to the answer that the Communists made to LaFollette's attack. There was only one daily that printed that reply in full, and the reply of the Arrangements Com-mittee of the June 17th Convention. That publication is the expression of the exploited workers and farmers.—THE DAILY WORKER:

We Fight for Winning Cause

In this struggle it is the DAILY WORKER against all the capitalist dailies. It may be a one-sided fight but it, so to a hopeless struggle. The DAILY WORKER has the far-reaching power of truth on its side. The DAILY WORKER is the champion of the oppressed workers and farmers. It stands four-square for their interests and their interests alone. The four-square for true interests and one interests alone. In a kept dailies of the capitalist class waddle about in the quick-sands of misrepresentation. They are fighting for a lost cause—the cause of decoping capitalism. The workers and farmers are ceasing to believe in them.

Get Truth in "The Daily"

This situation offers a tremendous opportunity for the DAILY WORKER.

LaFollette's attack has resulted in millions of workers hearing about the DAILY WORKER.

The yellow press does not give these millions the other side. They can only get the truth thru the columns of the DAILY WORKER itself.

But they can only get the truth thru subscribing for the DAILY WORKER; by getting and reading it daily.

That is the next step.

The Task of Our Readers

Readers of the DAILY WORKER! This is where you

Raders of the DAILY WORKER! This is where you come in! It isn't enough to have the workers and farmers know that the DAILY WORKER exists. Their names must go on our mailing lists. They must get it regularly.

Our experience has been that the workers and farmers want the DAILY WORKER. All that is necessary is to approach them and get their subskriptions. That is your job, readers of the DAILY WORKER!

The Answer Is Up to You!

How many new readers can we all get for "THE DAILY" during the next two weeks? That is for you to answer. We are making a special offer of a two months' subscription for \$1.00. Tens of thousands will accept that offer if it is properly presented to them. Here is a Special Subscription list. Put it Into action. Get busy, readers of the DAILY WORKER! Let the workers and farmers overywhere read the replies of the most oppressed workers and farmers to the attacks of LaFollette and his kind, to the attacks of the whole capitalist class. Here isthe subscription list ready to go to work. Help put it to work!

WRITER AND CARTOONIST TO EXPOSE NATIONAL REPUBLICAN CONVENTION FOR NATION'S WORKERS AND FARMERS

By J. LOUIS ENGRAHI

Here is our big announcement!
Robert Minor is going to Cleveland next week to unmask
the national Republican convention for the DAILY WORKER.
Thus we can assure the workers and farmers of the
nation that they will get the real inside of this gathering.

Minor Has But One Mission

Minor is a writer. Minor is a cartoonist. But, above all, Minor is a Communist.

Minor has but one mission in going to Cleveland. He will expose this political expression of Wall Street for what it

Revealing Words and Pictures

With words that singe, "Bob" Minor will reveal the true nature of this shameless harlot of the Morgans, the Rockefellers, the Sinclairs and the Dohenys.

In striking pictures he will lampoon and caricature this party of the plunderers, in which Senator Robert Marion L&Follette still has hope.

Know This Treachery

It is not enough that the workers and farmers know this part of the biggest profiteers. The oppressed, in the cities and on the land, must also really get acquainted with treachery of the LaFollettes, the Borahs, the Brookharts and the Pinnchst, who still cling to this party of "Strikebreaker" Coolidge.

That is the task that "Bob" Minor takes with him as he goes to Cleveland. It is a task that we believe he will successfully accomplish. And we know that all of our readers will have faith in "Bob" Minor that he will accomplish this task.

Only Story Worth Reading

We are proud that we are able to make this announce-ment that "Bob" Minor will go to Cleveland. And we know that all of our readers are proud to hear of this announce-

ment.

But we want to do more than congratulate ourselves upon the fact that our paper will tell the only story worth reading, of the Cleveland gathering.

Seek Army of New Readers

What more is there that we want.

We want tens of thousands of more readers for the
DAILY WORKER, in order that Minor's efforts at Cleveland
may also reach and influence them.

We want to got tens of thousands of new readers on
our mailing list this week, so that they will not miss a single
one of Minor's articles, or cartoons, or drawings from the
the first day of the Cleveland gathering.

One Against Many Thousands

Our DAILY WORKER is the only daily newspaper in the land fighting for the class Farmer-Labor party. All the other dailes, thousands of them, are against us one of the control of the cont

Latest news comes from North Dakota, in a telegram from R. R.
"Dad" Walker, chairman of the North Dakota Farmer-Labor party, to
Joseph Manley, secretary of the Federated Farmer-Labor party, that
is state has been added to the list of commonwealths that have

thrown Larollette overboard in the unautimous grive for including convention at St. Paul. The telegram declares that:

"The Farmer-Laborites of North Dakota are strong for the June 17 convention, at St. Paul, and the organization of a national Farmer-Labor party, regardless of LaFollette's attitude."

North Dakota was the original Nonpartisan league state. It has two Nonpartisan league senators in Washington, Lynn J. Frazier and E. F. Ladd. Both Frazier and Ladd have steadily drifted away from compromising camp of LaFollette. Ladd is the more reactionary of the two, even fitting, on many occasions, with the Coolidge administration at Washington. The telagram from "Dad" Walker, spokesman of the militants of North Dakota, would indicate that the workers and farmers of that state are planning for a new deal. **Growing Demand for the** Class Farm-Labor Meet man of the militants of re and farmers of that the strength of granite for the June 17 Farmer-Labor convention at St. Paul. THE DAILY WORKER AND THE VICTORY

By J. LOUIS ENGDAMI

On the one side the DAILY WORKER. Against it the whole yellow press. Yet the triumph has been complete.

The backbone of LaFolistie's attack is broken. Minnesota has declared for June 12th. Nebraska speaks up for June 17th. Par off Washington never waversd for June 17th. California takes its stand for June 17th. Illinois and New York repeat "For June 17th." Michigan adds its voice "For June 17th." And now comes Montana.

The roll is being called and there hasn't been a single break all along the line.

For the attack of LaFollette, spurred on by Gompers, and atted by the yellow press, the defeat has been disastrous. For the class-conscious workers and the arms of the nation, and their only spokesman in (the daily newspaper field, the DAILY WORKER, the triumph is overwhelming.

"It couldn't have been accomplished without the DAILY WORKER," is the declaration heard on every side.

"The DAILY WORKER won the day for the class Farmer-Labor party, for the i-vas convention of the farmers and workers to be held in St. Paul, Minnesota," is the unanimous admission.

What a chorus of opposition:
The best scribblers of the ent press yelled that the Junuary of the state of the second of the second of the state of LaFoliute, endorsed by Compars and receiving the "Amen," of the diletaute millionaires of the "Committee of 48."

"Amen:" of the diletante millionaires of the "Committee of 48."

"Milliam Hard, once heralded as a liberal, but now writing for the worst of the reactionary organs of capitalism, sent out the glad tidings from Washington that "June 17th" had to the committee of the committee of

What a powerful opposition!

What a powerful opposition!

But that apposition has been himbled. It has been crushed. Today it aim the dust. The onward march of the June 12 coffroytion is more steady, more determined than eve. before.

And the credit for this tremendous triumph goes in great part, by common acclaim, to the DALLY WORKER.

From the first hour that it appeared on Jan. 13, this great has the control of the party of all the nation's dailine. CR has cought single-handed among all the nation's dailine. The party of all oppressed workers and farmers.

It has had its writers at the gatherings of the workers and farmers wherever they have been held over the country, it has recorded the steady onward march. of all who feel the isan of tool, toward the class party, it has pointed out the necessity for independent political action for the workers and farmers. It has repeated the story in pictures and cartoons.

Today, with new glory, the DAILY WORKER keeps its eyes steadily on the future. It looks forward to ever greater achievements, with the aid of its growing army of readers. If the DAILY WORKER has won the victories that it already has to its credit, with the limited direutation that it now enjoys, what greater triumphs may it not achieve with tense as the control of the control of

That is a truth that all our present readers should carefully consider. We want them all to make that truth a living reality. We want all of our present readers to carefully and seriously consider. RIGHT NOW, what they can do to win new recruits for the DAILY WORKER'S growing army of readers.

A decisive reply has already been given LaFollette and his backers. But that reply must be heard in even greater, in thunder tones. It will be heard, fouder than ever, if the DAILY WORKER, thrit an immensely increased circulation can reach thousands of new readers.

We want you to help. We want you to start in getting which the properties of the DAILY WORKER. Cut out the list-below and get at least four names TODAY at the precial subscription rate of TWO MONTHS FOR ONE DOLLAR. You can fee it. Tyt, and the results will convince you that You can fee it. During the great railroad strike, when labor over the land was clamoring for a general movement of all workers in support of the strikers, Samuel Compers, president of the American Federation of Labor, took his executive council down to "Atlantic City by the Sea," the alluring watering place of the fashionable rich on New Jersey's ocean shore, resolutions coming in from all sections of the land, and in the midst of their luxurious surroundings, with a national bathing beauty contest in full swing on "The Boardwalk" and clearly visible from their windows, they decided that it was all a "Communist plot, engineered from Moscow." It was all a "Communist plot, engineered from Moscow, whole labor movement.

History repeats itself, is an old saying. Senator Robert Marion LaFollette, like Compers, also left the noisy and contactions atmosphere of Washington, D. C., and went to the contactions of the senate of the senate of the senate of the laft of the organization of the play in the national campaign this year. There were demands from all sections of the land for the organization of the class Farmer-Labor Party. LaFollette knew of these demands. He had been advised of the situation by William Mahoney, chairman of the Arrangements Committee of the June 17th St. Paul Convention. But, like Compers and his A. F. of L. regimo, LaFollette issued his edict from "Atlantic City by the Sea." and it also was to the effect that the demand of the workers and farmers for a class party was just another "Communist plot, engineered from Moscow."

Compers was able to prevent the workers generally from coming to the aid of the rail strikers. But LaFollette was not so successful in his Atlantic City edict. The workers and farmers decided to go ahead without him. The oppersed masses, in the cities and on the land, refused to take instructions from LaFollette at Atlantic City. They had a mind of, their own.

Everyone admits that the failure of LaFollette to lure the workers and farmers into the trap prepared for themwas in great part due to the fact that the DAILY WORKER is in the fails in the fails in the fails of the fail

CONGRESSMAN CRIES U.S. ARMS ONE CLASS AGAINST ANOTHER

WASHINGTON, June ?—Representative Ben Johnson of Kentucky, protesting against an item of over \$400,000 in the army appropriation bill for rifle clubs, said that when a house committee investigated the East St. Louis riots a few years ago, it found that 75 or 100 guns and unlimited-ammunition had been placed at the disposal of one of these clubs, "and that when the laborers in the meat packing plants went upon a strike, the packers seized these United States guns and this United States ammunition, thereby arming one set of clizens to shoot down annualition, thereby arming one set of clizens to shoot down annualition, thereby arming one set of clizens to shoot down annualition, thereby arming one set of clizens to shoot down another class of clizens to shoot down another class of clizens. Why should this thing go no?"

The vote was against him, 207 to 94.

CLEVELAND, June 3—With trains pouring into the oity wany thousands of visitors and delegates, with hotis already jammed and firest overflowing with eight-seers and drink-hunters on this eve of the republican national convention, an ominous struggle between the street railway corporation and its employes threatens to become the real subject of interest concerning the great president-making circus.

In the car-barns today are a number of cars on the windows of which has been fastened heavy wite grating like that used on the windows of police-patrol wagons. These cars are equipped for the strike that is foreshadowed. The Cleveland Railway Co. officials two days ago ordered union motormen and conductor or un these cars out on the street before the strike has even begun! The union men are wild with the prospect of the labor struggle taking place while the Coolidge convention is on. Cleveland committee appears to be upset with the prospect of the labor struggle taking place while the Coolidge convention. But the business men are not willing to go so far at so ask the street before costs per how increases which we could be a supported to the street before the strike of the prospect of the properties of the street before the strike has even begun! HARD-ROWED BURTON LITTERS PETROLEUM PHILOSOPHY IN HIS G. O. P. KEYNOTE SPEECH

By ROBERT MINOR.

Editor of "The Liberator."

Staff Writer and Cartoonist of THE DAILY WORKER.

CONVENTION HALL, CLEVELAND, O., June 10.—"It is appropriate that a republican national convention." said Theodors E. Burton, as he took the gavel as temporary chairman, "should assemble in Ohio".

In the highest staff of the Chicago of the republican party and the Row-Boat of State.

There's Harry Daugherty out there, in the sea of faces, a little glum because the Ohio delegation thought best not omake him openly the delegation chairman—him, Harry Daugherty, who might be now opening the convention instead of Burton if rother Mai had been less stingy with Roxie and Roxie hadat (human warner).

CAL CAN'T STOP MASSACHUSETTS FARMER-LABOR MOVEMENT'S PRAISE FOR DAILY WORKER'S BIG CAMPAIGN

From Calvin Coolidge's own state, Massachusetts, reports that the workers and farmers of the heart of old New England are eager for the formation of a netional Farmer-Labor Party to act independently of all the oil-soaked parties and really get a workingclass government of

soaked parties and really get a workingclass governments. These United States.

The Massachusetts Farmer-Labor Party delegate to St. The Massachusetts Farmer-Labor Party delegate to St. Paul, Thomas F. Conroy, has already sent out his statement that the state party is founded on a firm basis and will afguit to the estate party is founded upon which it was fight to the state party in the state of the millitant principles upon which it was

aght to the end for the militant principles upon which it was built.

The alternate delegate to the St. Paul convention, William Simons of the One Workers Union 1965, has sent us an enthusiatic letting appreciate the state of the St. Paul convention, William Simons of the One deeply interested in the astablishment of the Farmer-Labor Party of Massachusetts, as a separate party, distinct from the oid, plutocratic centrolled parties, I wish to offer my views on the part that the DAILY WORKER is preognized by active Farmer-Labor itself with the state as the standard bearer of the idea of a class Farmer-Labor Party in the United States. We have Laborites in this state as the standard bearer of the idea of a class Farmer-Labor Party in the United States. We have notion of "quinth your fineds and reward over sease." Others, hypnotized by the labor bureaucracy and patty politicians, want to tie labor to the kite of one politician who has his eyes on the White House. In this State, we have seen men who claim to stand for a labor party, but in practice, they have laid down on the job. The Farmer-Labor hard, to matter what labor misleaders or petty politicians may do. They want june 17th to go ahead with the original plans—to start a Farmer-Labor Party.

"The DAILY WORKER has carried the message of the Farmer-Labor Party,"

"WORKER has spread the defiant answer of the St. Paul Asangements Convention of delegates from the rank end file.

"You are in the right: Keep up the good fight!"

"You are in the right: Keep up the good fight!"

And in addition to these strong commendations of the part the DAILY WORKER is playing in the national figh for the class pollicial expression of the long neglected farmers and workers is this message from Frank Deluca, of the Tailory Union and member of the Massachusetts Farmer Labor Party executive committee:

"As a subsoriber te the Activities of the Santon Committee of the Massachusetts Farmer Labor Party executive committee:

"As a ubscriber to the DAILY WORKER. I have been highly pleased with the ryllitant stend it has taken on the question of a class Farmer-Labor Party. As a delegate from my organization to the Massachusette Conference for Progressive Political Action last July, I was disgusted with repussyfooting policy. I wanted to help build a lebor party and not to vote for so-called friends of Vabor, who betray labor at the first opportunity.

"The DAILY WORKER is to be congratulated for showing up the so-called "leadership" of LaFollatte, who wants to use the fermers and workers for political trickery.

Another Sell-Out

Orders were given to the street car men in Oleviand, by their own international using officers, and the carry through the street car men in Oleviand, by their own international using officers, and to carry thru the strike called for last night to enforce the decision of an arbitration of one class by another class. It is is inpractice that "Fighting Bob" has falled and silled and with the powers of their own union traread gata to count does not do even what he says he is ready with the powers of their own union traread gata to count does not do even what he says he is ready and anious to do. In carrying out even him is the enforcement. A more flagrant sellout has not been seen.

It is no no consequence whether the officials who been seen.

It is no for consequence whether the official who gave this outrageous order did so for payment of money, or whether they did it for political favors from the G. O. F., or whether it was dome render the golden promises and the leaden performances of the purpose of demonstrating the "respectation between the contraints," while the politicals and public police, are all ready—in co-operation with the usion object, posis.

It remains to be seen if the streat car men will quietly obey the orders of the officials who wast their wage increases that were granted by arbitration.

TAX DODGERS WILL BE ATTACKED BY TEACHERS FEDERATION'S NEW FIGHT FOR HUGE BUILDING FUND

While the board of education is so "magnanimously" holding a series of meetings in city schools at which Professor R. L. Lyman of the University of Chicago and ardent sponsor of the junior high system, is explaining the new program for the school system, the Chicago Teachers Federation is quietly laying plans for another attack upon the tax dodgers.

Miss Magnert Hisley, head of the teachers' organization, won her first laurella professor the control of the teachers' organization, won her first laurella professor page 1.)

REFUSAL TO JOIN COMPANY UNION

Use of arbitrary discharge to force newly employed railroad workers into the company fation is sanctioned by the rail labor board. A recent decision affirms that the Great Northern railway was within its rights when it discharged Edward Murphy, machinist, for refusing to join the carrier's pet "shop association." Such actions contradicts decisions previously rendered and runs counter to the underlying principles of the transportation act. Chairman Hooper's supporting opinion sustains the corporation's subterfuge.

"One Big Family"

The Western Electric Company has been forced to take notice of THE DAILY WORKER exposures of their methods of exploitation of the workers.

Like all institutions of the capitalist class, it falls back upon two molinatrys of the system—force and fraud.—WORKER from reaching the bedweeters Lieutric Takes, Karl Reves, reporter for THE DAILY WORKER, was arrested yesterday on the request of the corporation tools, to prevent him from handing out bills to the employes.

Fraud—the Western Electric Company is running high-priced advertisements in the capitalist press, in which they describe the slave conditions in its plants as ideal. "The Western Electric people are all one big family," says the advertisement.

describe the slave conditions in its plants as ideal. "The Western Electric people are all one big family," says the advertisement.
"One big family"—thousands of young men and women toll long hours for a miserable wags, to produce the profits that keep a few paraghts in idianess.

"One big family"—with a system of industrial seplonage, which means reducing wagse and living standards, which means reducing wagse and living standards from the industry.

Foreband fraud against the workers, is the method of the capitality olisse everywhere. So it is also the method of the Western-Electric Company.

Organization of the workers, in shop committees and unloss where the workers control, where the agents of the bosses are kept outside—this is the only way in which the bosses are kept outside—this is the only way in which the workers are the control where the agents of the bosses are kept outside—this is the only way in which the control western Electric Company can protect their own interest.

Organization—and education, which makes organization possible and keeps it strong. THE DAILY WORKER is giving the information and education, it is now up to your organization.

THE DAILY WORKER is in the battle to the end. Use it

ing the instance workers in the Western Electric company, organizations. WORKER is in the battle to the end. Use it to was up your failow workers! Use it to keep yourself up-to-date and well-informed! Use it to lay the foundations for a mighty organization of the Western Electric workers!

MINNESOTA WORKERS AND **FARMERS! VOTE COMMUNIST** IN THE PRIMARIES MONDAY

EVERY class-conscious worker and farmer in Minnesota will take great interest in the primaries to be held on Monday, June 16. Many candidates are in the field for nomination on the Farmer-Labor tickst. Unfortunately there are many of them who are attracted more by the possibility of getting into office than by the desire to build up a strong party of farmers and workers. It will be necisioned the Minnesota workers to discriminate carefully in voting.

Candidates who in the past have opposed the formation of the Farmer-Labor Federation as the basis for a solid party organization, cannot be trusted to flight for the policies of the party in the coming election. They should be passed over for those candidates who have fought for a strong party. Others who stand for the state party, but who, actively or passively, are sabotaging the June 17 convention called to form a national party. These also must be Blescarded, in favor of the staunch fighters for the St. Paul convention.

All together for the fighting class candidates, the Commists and others, and the Minnesota movement will take

The Roumanian Crisis

Roumania is in the threes of a 4-eop-going social change. Little by little the last vestiges of feedal influence are being uprovide. The day of undisputed capitalist supremacy, a dictatorably not marred by the challenge of the feedal ind-owing chass or disturbed by the runbilings of the revolutionary prolectariat is now clearly in sight.

The role of the capitalist class of Roumania in the war was despitable and cowardly. It bere all the war was despitable and cowardly. It bere all the ear-marks of the vascillatings, floundering policy so charcteristic of the expliciting data at the early stage of the control of the capitality global and the early stage of the Roumanian capitalities finally entered the lists against the German millitary machine.

"Not to Crown a King"

The great gathering at 8 L Paul, opening tomor-pow morning, marks a crisis in the development of the working class of the United States. A decision must be made that will witaily affect the labor movement for years to come. Whether the labor movement and locations a tool in the hands of capitalist and middle-class politicians, or if it shall cut its enalaving ties by launching a class party of fix own in ecoperation with the exploited formers—that in the large at 8 L Paul inconcrow. farmers-that is the Issue at St. Paul tomorrow The vast majority of the delegates will arrive with ination to found a class party of the workers.

Because they have found it impossible to break rmiuation of the workers and farm ers by a direct attack, the enemies of the Farme Labor party movement, open and secret, have c bined in an effort to confuse it, to break up its solidarity, to divide it so that it can be defeated

That is the meaning of LaFoliette's attack against the St. Paul convention. The senator from Wisconsin has joined the enemies of the Farmer-Labor party movement. He has purchased support in his personal campaign, from the reaction ary trade union officialdom and middle-class ele

ary trade usion officialdom and middle-class elements, by his denunciation of the only gathering
pledged to organize the workers' political forces.
The attack upon the Communists is an attack
upon the principle of an erganized party. LaFolletto is against the St. Paul convention, not
cause of the presence of the Communists, but because of the presence of the Communists, but because he does not want to be controlled by ergan-ized workers and farmers. He wants to run things with the help of his hand-picked assistants. He is afraid of the "radicalism" of the bankrupt farmers and class-conscions workers. Therefore he tries to break up their organization.

Communism has been picked out for the attack

because the Communists are the most tireless fighters for the principle of organisation, for a res party, for giving power into the hands of the men end women who toli, fer controlling the political representatives of the workers and farmers thru

The issues have been joined. Those who are for a strong party of workers and farmers, will disregard ail personsities and middle-class dictators. "This convention is not called to crown a king but to found a party."

"Back Where You Came From"

Michael Bilokunsky is a Rassian worker who came to America to escape the persecutions of the Caraits government. But Michael found that he had jumped from the frying pan into the fire. He talked about his disillation. So the 100 per cent Department of Labor, under the Hon. J. J. Davis, ondered that he be sent back where he came from. So he was deported on the S. S. Leviathian on Mar. 27th.

So he was deported on the S. S. Leviathian on May 27th.

But here's the rab! Onr glorious government, not having recognized Soviet Russia, will have no truck with here even for deportation of the National Defense secretary in New York, Bilokunsky in the bedropped off in Romanian or Poland, where men like Bilokunsky are imprisoned or shot. He was told to "go back where you came from," but the Department of Labor changed the destination. An appeal to Secretary of Sixth Haghes has been made by the Defense Committee to stop the out-reg.

rage.

The moral of this for our 100 per centers would seem to be: "Recognize Soviet Russia se we can deport the Russian reds."

Workers and Farmers! DELEGATES OF WORKERS AND Fight for Your Class!

This day, at St. Paul, marks the beginning of new struggles and new victories for the jobiess workers and the bank-rupy "June 17th" has read to make the structure of the most oppressed, as the date of the organization of the class party of the workers and farmers in America.

But this gathering of workers and farmers cannot mark the completion or victory of any great effort. It is but an inliestone on labor's rugged and difficult road to power. An inliestone on labor's rugged and difficult road to power, and Farmeral. And that guiding baseon, Workers and Farmeral. And that guiding base contained in the aggressive slogan, "Fight for Your Class!"

The two oid parties, the democratic and republican par-

ties of Wall Street, ignt for the great capitalism interests of builded class organizations, the small business men's tendencies in the old parties, these fight for the interests of the small bankers, the little landlords and the helpless, picaryone industrialists. But this class always remains the left wing of Wall Street just the same.

Neither of these classes will fight for the robbed work-day of the control of the classes will fight of the control of the classes will fight for the control of the classes will fight for the robbed work-day of the classes will fight for the robbed work-day of the classes will be classes and capital the classes where, these two classes units against the masses of men and women who constitute the working class.

and women who constitute the working class.

Workers and Farmers! You must do your own fighting!
You must fight for your class! You must organize to fight for your class! How must organize to fight for your class! when the class is the second of the workers and farmers into a class party—the party of the workers and farmers. Such, an effort was made a year ago at Chicago, at the July 3rd Convention. The Chicago Conference did heroic work for the class party of workers and farmers. It black the way for this June 17th Conference in St. Paul. The work started in Chicago must be advanced in St. Paul. Upon the started in Chicago must be advanced in St. Paul. Upon the party of the started in Chicago must be advanced in St. Paul. Upon the party of the started in Chicago must be advanced in St. Paul. Upon the leigh rear the description of the started in Chicago must be difficult and to lief old the broadest masses of the nation's city and land to lief.

help rear the superstructure that will bring into its fold the broadest masses of the nation's city and land toilers.

It is impossible to minimize the difficult nature of this lask. The attacks on this St. Paul Conference will be followed by new and more bitter assaults against the class party. But labor knows no exhaustion in the long fight for its complete emancipation. The oppressed in all ages have struggled, suffered, saurificed and survived thru succeeding and changing forms of civilization. There is no bottom to above reservoir of strength to renew the combat against its enamies. It stands more powerful than ever today griding or the future conflict.

The working class will come out of this June 17th St. Paul Conference extenger than it went into it. The workers and farmers will profit by the difficult experiences they are passing them. They will build batter in the future because of the malicious attacks that have been made and that are still being made upon them. Care and farmers of the nation, represented thru their delegates in the St. Paul Conference. It stands shoulder with them in their every day struggles to build heir power. In the fight for the class party, as in every other labor struggle, the DAILY WORKER will continue to be in the front line trenches, as always.

Workers and Farmers! Forward for the Class Party.

ST. PAUL, Minn, June 16.—Worker and farmer delegates, gathered here tonlight, stand before an historic decision at the Mational Farmer-Labor Convention that opens in the St. Paul Municipal Auditorium on the morrow.

"Unity!" in the watchword that passes from lip to lip.

"Unity!" in the face of the most determined efforts to break the solidarity of the most oppressed sections of the city and land, workers. And the one thing that can save the "Unity!" of the great gathering is its rank and file character, not at all unlike the make-up to the most oppressed sections of the city and land, workers. ATTACKED BY EXPLOITENES.

The June 17th convention that convenes here on the morrow has had, of course, the solid opposition of the yellow press of the landlords, bankers and food gamblers. But in addition it has been subjected to the worst slanders of the whole right wing section of the organized farmer and labor movement, not to mention the so-called "progressive" sections of the old parties of capitalism. own purpose in time, is temporarily confusing. And it is in the face of that confusion that the cry for "Unity!" raises its very for "Unity!" raises its very for interest determined of a class left than the face of the confusion that the cry for "Unity!" raises its very for "Unity!" raises its very for "Unity!" raises its very for interest determined the confusion of a class definite mass character,

ROME, Italy, June 16.—In epite of Prenier Mussolini's attempts to prevent the arrest of Sig. Filippelli, editor of the chief Faccist newspaper, Corriers taliano, the police took Filippelli from a Florence train at Orts station after a race by auto with the train. Filippell hired the machine in which the Socialist deputy and bitter opposer of Mussolini, Giocomo Matteoti, was kidnapped. Sig. Filippelli had left Rome, resigning his position, immediately after being questioned by Judge Grossi. Sig. Matterti's card as deputy was found on the roadside just outside of Rome. His body has not yet been found, altho the Socialist deputes Baldeal, Musatti, and Ciccotti were dragging Lake Vico all day.

ST. PAUL, June 17—Amid all the wild reports sent out
by the yellow press about the National Farmer-Labor Convention here, perhaps the viest canard is the one announcing that the Communist delegates had been barred from the
gathering. This millious falsehood was carried, in one
form or another, in practically all the capitalist dallies and
thru their news agencies on the sev of the convention's
opening. Of course there was no basis anywhere for this lie.

"There was never at any time any move to unesat the
Communist delegates," declared C. A. Hathaway, chalrman
of the oredentials committee. "The matter was never brought
up by any one, it was never discussed. This is only some
more hair-brained factional lie frantically circulated in an
error to discredit our convention. Many more such silly
expected one be expected during the sessions of the convenfuence of the convention of the conventions. The second one of the tree of the conventions. Let them support and strengthen instead their own
press. All that the capitalist dallies will publish about this
convention will be lies, lies, lies."

After the Lying Press

The Lying Press

The capitalist press mere lived up to its reputation as a percent of acts and purreyor of false hood better than in its treatment of the St. Paul convention. For month before the date of the historic gathering every capitalist propaganda agency, including labor fakers, fake liberal hoor month of their wrath on the great class farmer-labor movement that had its focal point in St. Paul.

Various discredited political backs were trotted ont to denounce it. Gompers did his stuff. The socialitat party pet up a constant stream of willification. Flanly, Robert Marion LaPollette was induced to risk his voice against it. Then avail chorus began in real carreet. A concerted effort was made to frighten the workers and farmer came to St. Panl and so did the Communists.

But the capitalist reporters did their darndest on the ever of the control was a flat failure. The workers and farmer came to St. Panl and so did the Communists.

But the capitalist reporters did their darndest on the ever of the convention. Several of the best liars in the country were in Chicago, Washington and St. Panl. Tired radicals, discredited labor fakers and pulpilless preachers who turned from Got to the workers for a meal ticket delivered themselves of veighty pronouncementor. St. Panl would fixele. It would go on the rocks.

Then from the twin clies came the news that the Communists were not admitted to the covering from the demonituation caused by the Fascisti are getting despetitions. They are again assuming the offence crack leaders. They are again assuming the offence report of the best distributed to the covering for a state of the labor that the country were then Chicago, Washington and St. Panl. Tired radicals, discredited labor fakers and pulpilless preachers who turned from Got to the workers for a meal ticket delivered themselves of veighty pronouncementor. St. Panl would fixele. It would go on the rocks.

Then from the twin clies came the news that the Communists were not admitted to the coverin

of the livities capitalists in Mexico as it does in England and all over the world.

Moscow is credited by some of its enemies with having distorted notions of the condition of the revolutionary movement here and the weakness of the government. Let us hope that the reports of hold-ups, hangings, train robberles, etc., will not create the Impression on the other side that the Teapot Dome government has quit.

The "Third Degree"

Every now and then a how goes up from the liberal elements over some-particularly obnazious incident connected with the working of the capitalist government. But the shouting soon dies down and the capitalist government goes along riding roughshod over the people's "rights," recognised more in breach than in observance.

By J. LOUIS ENGDAHL.

The fight of the Farmer-Labor forces that organized at the St. Paul Convention will be pushed immediately.

The struggle for the class party of the workhen the 500 selegates, coming from 30 states, left for their homes the universal slogan was "Let's go!"

The work that will be lanched immediately under the direction of the National Executive Committee will be to strengthed the state parties already in existence. In some cases this will be done thru the holding of state conventions, elsewhere speaker and organizers will be put; in the road, while literature campaigns will be started overywher.

Donald, of Illneis, and William Bouck, of Washington, will be taken up. It is planned to tour them thru a large number of states. They are already being showered with demands for speaking engagements.

Both MacDonald and Bouck are splendid speakers. MacDonald had for years been a national figure in this in all the modulation of the states. They are already being showered with demands for speaking engagements.

Treatly-four former employees of the Morris packing company in bringing suit for the payment of these funds, charge the packers with naing the pension idea to keep the men on the job; at a low

ing company the packers with saing the pendion idea to keep the men on the job, at a low sainary. The Morria company used the amalgamation with the Armour Packing company in 1969 as an accuse for dodging their collegation to the employes. The packing employes charged on the witness stand that the Morria packing company managers kept them from accepting jobs at higher sainaries by Leiling them. "You over it fit when you are too and penniless."

These pension systems are controlled by company officials. The money is paid out, according to the bosses' pension plan, at the discretion of a committee of the officers of the company. Following out their usual policy of cutting down the cost of production, the Weilars department of the Western Electric, and the legal department of the other industrial plants pay the pensions only when, they are nashle to wiggle out on many legal way. The pension plans, which are drawn up and run by the companies themselves.

Therefore it does not pay an employe to be too loyal. As long as the wage slave predicts a profit above the wage he receives, he is kept on. Anything that cuts into the bosses' profits such as a sick and death benefit or pension, is violently resisted by the company stockholders.

The Fifth Congress

The Fifth Congress

Millions of workers the world over have their eyes fastened upon the Fifth World Congress of the Communist International now in session in Moscow. The hopes of the world's profeturiat are contend in this guiltering, whillipsens the rission of the world's profeturiat are organized power, with our half of the contended the profeturiat are considered by the contended the rission of the contended the rission of the contended the congress proceeds, the forces that brot it into being continue their work uninterrupteity. The hreaddown of the capitalist system becomes more and more evident, and what were but cracks in 1ts glant walls a short time ago now show themselves as great breaches. In Italy, the triumphant Fascist party of counter-revolution is completing the destruction of capitalism inder the guise of re-establishing it, and hastening the profetarian uprising. Recent reveal the same are stirring the ord years of apathy, which work the contended of the conte

capitalism.

In France, also, the center of victorions imperialism, the workers have learned the issue that there is but one real victory for the workers, and that victory is the one that overthrows and that victory is the one that overthrows the capitalist cines of France as well as of the real of the world. The French workers are but a step between the former of the world.

capitalist class of France as well as of the rest of the world. The French workers are but a step behind the German.

In Great Diritain the development in slower, due to the continued illusions of peacetti and "demo-ratic" transition still, the peacetti and "demo-ratic" transition at the continued peacetti and "demo-ratic" transition at the very similar manuferaturaling is waxing rapidly as shown by the growing circulation of the Communist press, and the growth of the trade union left wing.

And onistide the great industrial centers of the world, even into the darkest recesses of Africa and Asia, the message of illeration of the Communist International has gone. All the subject peoples of the earth will be awaiting the results of the Fifth Congress with eager hearts and a firm faith. The speech of Pat Harrison, more sonorous than that of Butier in Cleveland, was equally devoid of all meaning except this—that the old parties stand ready to fight against the working masses and for the maintenance of the rule of capital. The workers can see the whip of their masters in the New York convention.

Passing of Powderly

Passing of Powderly

News of the death resterday of T. V. Powderly, famous as the head of the once-powerful Knights of Labor, closes a chapter in the history of the American labor movement that was colorful and rich in experience. First appearing as a labor official about 1875, he was appointed by the Indnatrial Brotherhood, forernner of the Knights of Labor, as an organizer. He became head of the latter early in its career, and continned in that position until 1893. He furnished a remarkable example of a conservative and even timid person leading a movement that was always radical, and at times revolutionary in its spirit.

At a time when the Knights of Labor were powerful and the craft unions were quite weak (1885), it was largely the inflaence of Powderly which kept the Knights officially on the edge of the developing eighthour movement and allowed the craft unions to initiate the call for the general strike of May 1, 1888. And while the revolutionary strike of May 1, 1888. And while the revolutionary

tespt the Anglets Outcarry of the eaget to the tes-veloping eight-hour movement and allowed the craft of May 1, 1886, And while the recolotionary apirts of the Knights had caused its members everywhere to throw themselves into the eight-hour campaign, so that it was really the Knights of Labor which made it as successful as it was, yet Powderly, in his official position as Grand Mayer Workman, was actively asbotaging it. On March 13, 1886, on the eve of the artike, he issued a se-cret circular to the units of the organization, ad-vising them to keep out of the eight-hour move-ment. This had succh to do with the rapid disin-tegration of that one-powerful organization of

vising them to keep ont of the eight-hoor movement. This had much to do with the rapid disintegration of that once-powerful organization. Prowderly completed the demoralization of the Knights of Labor with his political manipulations along the classical lines of "rewarding friends." He consistently opposed independent political action and fought against the early attempts to found a labor party. Betting the example followed since that time hy so many "labor leaders." he findly wormed his way into the lower circles of politics, accumulated an independent livelihood, and abandoned the labor movement. Prowderly as a leader of labor had been dead many, many years before his body was laid in the grave. So moth so, that the news of his death will come to thousands today as a distinct surpise—"If the he was dead a long time ago," sation unionist, whose astonishment mirrored the completeness with which Powderly had been left behind in the march of history.

labor forces at 8t. Paul was not a success. But it will have a difficult time in putting this false hoodcover. There were too many delegates pres-ent at 8t. Paul, from Wisconsin, so allow this misrepresentation of a great movement to go nn.

misropresentation of a great movement to go nn-challenged.

Berger's editorial, supporting as it did the attack of LaFoliette on the St. Paul gathering, was published the day before the Wisconsin socialists repudiated LaFoliette and side swiped the Clereland meeting of the conference for Progressive Political Action. This would indicate that Berger had misjodged his own party membership as much as he had maligaded the St. Paul gathering.

These are days when politicians, both within and without the labor movement, are learning that events do not develop as they wish. The masses of the workers and farmers are having sounching to say. And what they say sounds entirely different from the prophesies and the claims of the the place-hanting politicians trying to win leadership over them.

Discord in the Democracy

goadp albut the bitter struggles waging between the factions of the Democratic party. According to accounts the fight is taking on fanatical bitter-ness, threatening splits and all sories of dire con-sequences, right on the ewe of an election which the democrate claim is theirs by default. It is interesting to compare the discord now going on in the Democratic party, and the attitude of the spitalist press to it, with the discussions that occurred a few months ago in the Russian Communist party. Every journalistic prostitute in the country was writing editorials showing how the debates between Zinoview and Trotaky meant the downfall of the Soviet government and the liquidation of the revolution. It meant nothing of the kind, of course, and the discussions ended with unanimous decisions of the party congress.

the debates between Zinovier the debates between Zinovier the downfall of the Soviet government and the liquidation of the revolution. It meant nothing to the kind, of course, and the discussions ended with unanimous decisions of the party congress. The same capitalist press today takes the disgraceful controversies in the Democratic party as a matter of course. Quarrels about no principle whatever, involving nothing more sacred than the question of who will distribute the patronage, they indicate the extreme corruption and degradation of bonrgeois politics in this, the age of capitalist decay. In the Russian discussions there was the decay. In the Russian discussions there was the breath of life, the spirit of the working class solbreath of life, the spirit of the working class solvi-ing its prohiems and going forward united to new up achievements—but the capitalist press wanted to see only decay. In the Democratic party squab— bles there is the quarrel for booty, the spirit of graft and corruption of a decaying class rule—but set the capitalist press wants to see only a dignified difference of "principles."

When the London suhwaymen went on atrike against intolerable conditions, the press charged and interesting points is well known and the communist influence was responsible. Exercise that that sounded natural. A good reputation was considered to be a communisted and increases of hours have, that when workers flight for their rights now threstening in the impending the communists are in the lead. When the London subwaymen went on strike against intolerable coulditions, the press charged that Communist influence was responsible. Everyone that that sounded natural. A good reputation to have, that when workers fight for their rights the Communists are in the lead.

The so-called labor government of Britain is demanding that Soviet Russia pay English capi-talists for old dehts and losses in the revolution. English capitalism must love such a labor govern-

Trot Out the Old Stuff

The Sherman Anti-Trust Law has furnished much campaign material in the past. It serves alike for conservatives, progressives, ins and outs. If an election draws near, file a suit to bust up the Standard Oil corporation; that is always popular; it draws the votes, and it doesn't hurt Standard. Call Coolidge and his advisers have evidently decided to fall back upon this oil reliable method of campaigning. So Attoruey General Stone, successor to the late Daupherty of odorous memory, has filed suit against fifty oil companies, headed by Standard will doubtless make extra contributions to the Coolidge fund in return for the free adversing, while the boobery will cheer the great trust-bouster.

trust-buster.

And so they continue to rot out the old stuff. There is a terrible staleness about everything done in this campaiga by the Republicard and Democratic parties. They are in the days of their decay, and their imaginations have been the first to die.

"Good fellows with bottles and lovely ladies with Al Smith badges," says William Hard, are the big arguments in the democratic consequences. Well, it must be admitted that such arguments are more integrating than the century-old oratory and bunk that is being tossed from the platform.

Warren Stoue says in public he is for LaFol lette; privately he sends his agent, Herman Wills to work for McAdoo. But all the time he is against the Farmer Labor party. At least he is consistent a the

MADISON SQUARE CARDEN, New York, June 27.—The
donkey party will trot towards November över the thinnest platform in years, in the opinion of political observers who are watching the planks which William Jannings Bryan, Newton D. Baker

The thinnest of all the planks is the one being set for the
feet of the unwary followers of the labor fakers. The platform
committee is preserving a suspicious silence on the party's labor
program, but it was learned that the fighting word "injunction,"
which once was a leading democratic issue, will be surred over.

JACKASS PLATFORM IS SILENT ON RIGHT TO ORGANIZE: NOT PLEDGED AGAINST CHILD LABOR

MADISON SGUARE GARDEN, New York, June 29—
Samuel Compera democratic party has adopted its platform for the 1224 campaign. This is also the platform endorsed by the vice-presidential nomination. In the race this week for the vice-presidential nomination, which James A. Holland, president of the New York State Federation of Labor, Compera' lieutenant in Tammany Hall palitics, is enthuslastically committed.

This democratic platform does not say a word about trade unlone;

This democratic platform does not eay a word about trade unions:

This democratic platform does not eay a word about trade unions:

The open signist labor are not mentioned:

The open shop drive is not condenned:

Abolition of child labor is not pledged;

The Railway Labor Board, which fought the shopmen's unions in 1922, is not referred to in the vague railroad plank;

Labor, which is offered nothing, is told that it is not a commodity—chill comfort for the workers, whose labor le bought and sold at the lowest price;

The anti-labor Ku Klux Klan is not attacked by name;
Expropriation of the farmers by the banking trust is good to the lowest price;

Labor, which is offered to the control of the control

of New York bankers, are ornered not a word or nope of usualing freedom.

The democratic platform is the most reactionary the party has put into a presidential campaign in thirty years. It is a challenge to labor which will swell the tide of revolt expressed thru the class Farmer-Labor party organized at St. Paul behind Duncan McDonald and William Bouck.

(Federated Press Staff Correspondent)

WASHINGTON, June 29.—Examination of the available documents in the disputs between Secretary Hughes and the Chinese foreign officion him by means of the claim of \$4,000,000 for the cost of operating the Chinese Eastern Railway in 1915-22, shows that Hughes has been caught biuffing, and that Russia and China have made him ridiculous.

About May 1st the State Department officials dealed that any interference or pressure had been brought by the United States, to alow up the Russo-Chinese negotiations. At that time a treaty had been signed, but it was promptly rejected by the Chinese cabinet. Now comes proof that Hughes did intervene.

They Have the Votes

A group of so-called labor leaders, bureaucrats in courted of office in the railroad unions, boasted in public that they shave the necessary votes to prevent the successful launching of an independent movement? for working-class political action. They wanted M-Audo on the democratic ticket, and claimed that they have the labor movement host claim and ready to deliver to the highest bidder. They have the votes, so they claim, to do wit as they please. But how have they got with the properties of the progressive Action, when they are the conference for Progressive Action, when the man and file delegates are excluded, where the native stray delegates that might be considered the properties. They control the votes in the Conference where they nade the rules and gave themselves the except of the progressive to the properties of the progressive to the properties.

It is interesting to note that Lab'ollette did his best to throw all the power of his own, followers to the Cleveland Conference, where the men who "control the voter" offer to sell them to Machon and the Democrats. Who "said Lab'ollette is a "practical politician"; It is the men who control the votes, and put them up for sale, that are practical in the sense of getting the cash.

World Communist Movement Fights War and Militarism

TO ALL UNITS OF THE WORKERS PARTY:

The Communist International has called upon all Communist Parties the world over to organize great demonstrations and agitation against war and militarism and against the social particism of the Social Democratio Parties on the tenth, anniversary of the beginning of the great world war. The week from July 27th to August 4th has been set aside for these demonstrations.

for these demonstrations.

The workers of the world are still suffering and bleeding as a result of the great capitalist slaughter. Altho the effects of the world war are not yet over, capitalism still exists and threatens to again engulf the world in a similar slaughter. The imperialist ambitions of the exploiters are preparing the ground for new sacrifices of millions of lives and millions of wealth.

threatens to again engulf the world in a similar slaughter. The imperialist ambitions of the exploiters are preparing the ground for new sacrifices of millions of lives and millions of wealth conjudy force in the world today that stands against this slaughter for profit are the revolutionary workers of the world. It is only thru a blow that will aboilsh capitalism from the earth that the danger of new wars can be averted. Here in the United States we see this danger develoging in constant efforts to increase the military problitation, and mobilization of great meases in support of preparedness movements, the country, in proposals for military mobilization, and mobilization of great meases in support of preparedness movements, the control of great meases in support of preparedness movements, the control of great meases in support of preparedness movements, the control of great meases in support of preparedness movements, the control of great meases in support of preparedness movements, the standard of the country is the standard of the control of great meases in support of preparedness movements and interferences in Central and South American countries in the interests of he banking power of Wall Street grows more and more frequent. And in these activities there are the great management of the standard prepared to the comparing the standard of the country should the financial interests of the American capitalists be in danger at any time.

The Dawser sport fravar up by American support of the worlds will be campaign in support of the worlds will be considered the standard of the country should the financial interests of the American capitalists be in danger at any time.

The Cantral Executive Committee of our Party enters to discuss the country should the financial interests of the party shall take the following form:

—Mass meetings shall be arranged by every City Centrol on against militarium, imperialists wars, and for the social revolution and the trumph of the workers.

—The Central Executive Committee will

5—Resolutions against imperialist wars and militarism shall be introduced by all Party members who are members of labor unions as well as other workers' organizations.

6—Wherever possible, Party organizations shall invite the co-operation of other workers' organizations such as co-operatives, etc., to join in United Front organizations in support of this campaign.

Tage unions, I never a variable to the composition of the workers and peasants of Russia in The triumph of the workers and peasants of Russia in establishing their Union of Socialist Soviet Republics is the best safeguard of these workers and peasants against imperialist wars and militarist. The party organization and members in carrying on their work in connection with the Anti-imperialist War and Militarist Week must point this out to the workers. The end of the period of capitalist mass to the workers. The send of the period of capitalist mass (Republic) of the world.

Comrades: It is our duty to mobilize all our strength in support of this world-wide demonstration against war and militarism and against the treachery of yellow reformist Socialism which ooliapsed with the beginning of the world war. Let us answer the call of the Communist international with ferror and enthusiasm and demonstrate that we are part with ferror and enthusiasm and demonstrate that we are part with ferror and enthusiasm and demonstrate that we are part significantly everywhere against world nin revolution which is fighting everywhere against world or an afgeuard the profits of the exploiters.

The fight against corruption, against special privilege, against the exploitation which robes the farmers and industrial workship of the special privilege, against the exploitation which robes the farmers and industrial work on thru a class por hist role, can only be won thru a class por hist role, or an exploited groups—the farmers and industrial workers. Upon the solid role of class interests the political party of the producers must be built.

The interests of small business men, of liberals in the Committee of 48, of the progressive of the LaFoliette group, are not the same, and cannot be harmonized with the same and cannot be harmonized with the same and cannot be harmonized with which ries to hold together all these groups cannot live. It is bound to break asunder in the clash of class interests between the groups included in it.

UNITE WITH FARMER-LABOR PARTY!

UNITE WITH FARMER-LABOR PARTY!

We call upon those delegates who want a fame farmer-labor Party, who want a class fight by the producers against their exploiters, who want a worker's and farmers' government—not plant a worker's and farmers' government—not a LaFollette government—to join in building a Farmer-Labor Party.

Books for Meetings

By Upton Sinclair

By Upton Sinclair

THE campaign is coming, and you will want books to sell at meetings. We have an overstock of our two best propagands books, "The Brass Check," A Study of American Journalism; and "100%," a story which exposes the spy system of Big Business. "The Brass Check" contains 448 or \$1.00. "100%" contains 320 pages, and up ofter definition of \$1.00. "100%" contains 320 pages, and up ofter definition of \$1.00. Also we have "100%" in clotch binding on the best white paper, six copies for \$1.00. You will never have another bargain like this offered to you; the price is less than haif the actual cost of manufacture of the books. The retail price has been \$1.20 clotch, 60 cents paper. You can make money by selling the books at 50 cents cloth and 25 cents paper.

MEMBERSHIP MEETING JULY 8 TO HEAR OUR PARTY WORK PROGRAM

Forward! To Labor's Rule! Not "Back to 1776!"

A STATEMENT BY THE WORKERS PARTY OF AMERICA ON THE CONVENTION OF THE CONFERENCE FOR PROGRESSIVE POLITICAL ACTION.

THIS convention cails itself "progressive," but in an economic sense it is the most reactionary political convention held this year.

The real struggle in this country today is between two militant group—the great capitalists who dominate the economic life of the country and the workers who produce the wealth in the industries. The capitalists have a clear program, expressed by the republican and democratic parties—the monopolization of production for their profit. Against employed the program of the program of the program capitalist of production for their profit. Against employed the program of the program capitalists of production for their profit. Against excellization of industry. Between these two programs there is no tenable middle-ground.

This convention stands for an impossible middle program. LaFollette's statement is a platform for another trust-busting campaign. LaFolletts and the leaders of this convention think they can turn the hands of sconomic progress backward. They represent the class viewpoint of the group the helitating group of small businessers, and professional men who refuse to recognize the inevitability of the concentration of industry, with contused masses of industrial workers and farmers who are as yet unwilling to take up the struggie against the capitalist system, tagging along with them.

This social group never knows what it wants, except

struggie against the capitalist system, tagging along with them. This social group never knows what it wants, except that paradise was in the past. It never stands for progress, this convention is back to 1776—in a world which in its economic development has made its great advance since 1776. To this bewildered group Senator LaFoliette, who wants to restore democracy in government, hands down a platform and a section that he will run as the candidate of no party but as ah "independent progressive." The king has spoken, The convention must awailow it. Support this backward-facing movement. The workers and farmer of this country have nothing to hope from it. They must organize their own upon the ukases of an individual—even the he Robert M. LaFoliette.

LaFoliette.

AFfoliette and the lagainst class government. We will see that the second of the second

gles of social classes, which establish their own chass government. The future belongs to the workers and farmers. It is only thru the use of their class strength that capitalist exploitation and domination of the government will be abolished. The Workers Party is dedicated to that struggle and to win that struggle it will fight against the attempt of Robert M. LaFoliette to lead the workers—backward to '76. NEW YORK, July 6.—The Ku Kiux Kian fight in the Demooratic convention in New York was a frame-up. The Democratic
platform does not condemn the kian by name because the Democratic
Catholic bosses, Bernann, of Illinois, and Tammany, of
New York, did not want the kian named. On the surface they led
the fight against the kian, but in the end they prevented the
from being voted down by a good majority. An anti-kian plank
will lose votes in November. This was the doctrine of the politicians, Catholics no less than Protestants.

Thereby hange a tale. The whole story is not known but
enough is known to disprore dressed up version making it appear
a real fight, which is being mouthed by the politicians and press.

Socialist Treachery

Following up its consistent record of betrayal of the German working class for ten years, the German SocialDemecrate Party, in convention in Berlin, has vored to base its policy upon acceptance of the Dawes report on reparations. This means that it has voted to place the German working class and a larger of German working class and a started in the social of the working day and starvation wages for years to come.

This treason strikes not alone at the German workers. It is also a kinfe in the back of the working day and starvation wages for years to come.

This treason strikes not alone at the German workers, it is also a kinfe in the back of the working days of every capitalist country. For the products of the other strayal of the international working the working class and every depth of the trayal of the international working the control of the imperialists of the world as a tremendous class with which to beat down the standard of the company are enlisting the German unions as international strikes have been also control workers. All of which is the logical outcome of the policy of class collaboration practiced alike by German and French socialism, the British Labor Party, and Gongers, Johnson, Stone & Co. in American working class and they have power to change their own of the strayal of which is the logical outcome of the policy of class collaboration practiced alike by German and French socialism, the British Labor Party, and Gongers, Johnson, Stone & Co. in American working class collaboration practiced alike by German socialism, by their voice to support the same of the recomplete working class collaboration practiced alike by German social working class collaboration practiced alike

The Cleveland Figses

"One of the best platforms ever enunciated as an expression of the interests of the wealth-pro-ducing classes," is the judgement of William Ma-honey, of the Minnesota Farmer-Labor Party, on the program adopted on June 17th at St. Paul.

The "mobilisation" planned by the War Department in September, is a step toward the next war. Workers of the United States must be more high trained, for next time they must take the lead in war, as American capitalism takes the lead of all cantifalism rations.

Lawyer for International **Banker Gets Presidential** THE SOCIALISTS Nomination at New York

(Special to the Daily Worker)

MADISON SQUARE GARDEN, New York, July 9.—John W. Davis, attorney for the House,

Morgan, and the Morgan controlled Bell Telephone company, was unanimously. seembly the democratic convention this afternoon.

The nomination of Morgan's choice shows the final supremacy of Wall Street in the collapse of the bo-called Bryan "progressives."

Wall St. Nominates

AFTER an exhibition of good-natured tolerance, which allowed the small trusted capitalist of the tail grass to hawk their antique notions of political ethics in the big ofrous augitorium for over two weeks, Wall Street finally cracked the big whip and forced its servants in charge of the democratic convention to cut (but the horse play and do what they are paid for. That is to serve Wall Street by are paid for. That is to serve Wall Street by a bound of the democratic convenience of the paid when the serve the paid when the serve the serve that the paid when the serve the serve and Wall Street, was successful in putting him across. spite of the maudin shrieks of William Jennings Bryan, spokesmah for the Ku Klux Klan and his threat to fight to the end against Davis, Wall Street thru its clever injection of the religious issue and its rianouvering of the "Commoner" into the role of Klan defender, discradited that old faker until toward the and of the sessions, his appearance on the platform was the signal for boos and hisses. ¿Davis was put across when the road was clear.

Services to Plutocracy

Who is John W. Davis? He is the outstanding reactionary in the democratio party. Since he first entered politics, his ability was placed at the disposal of Big Business. In congress and out of congress he has never failed in his loyalty. He is now a member of the J. P. Morgan banking firm. He was solicitor general of the United States under the first term of Woodrow Wilson and from 1918 to 1921 was Wilson's embassed or to the Cut of the America was he distinguished him the Congress of the Cut of the C

With a Gunman's Aid

Davis is the attorney for the Telephone Trust and succeeds in raising the telephone toils in New York fifteen per cent. Davis was supported at the democratic convention by the notorious Don Chafin, of Legan County, W. Va., leader of the army of Baldwin-Feits murderrar who are specialists in early of strikebreaking and killing union miners.

— Davis represents the telephone of the convention of the army of Baldwin-Feits murderrar who are specialists in As these lines are written, Wall Street has not celested a running mate for Davis. But it will be just as careful as it was at the republican party convention. Coolidge and Davis! Dawes and . . ! Wall Street can laugh heartly while some deluded workers will quarral over the shadow boxers.

Two Wall Street Parties

The republican party is the party of big business. The democratic party was once the party of little business. But it is that no longer. Wall Street now has by the need. La dependent capitalists proposes to clean the capitalist proposes to clean the capitalist proposes to clean the capitalist political stables and make capitalism tolerable. It cannot be denoted with the capitalist proposes to clean the capitalist political stables and make capitalism cannot be reformed, it must be destroyed. Capitalism cannot be reformed, it must be destroyed. Such as the capitalist capitalist party. Capitalism cannot be reformed, it must be destroyed. Such as the capitalist system represented in the United States by Wall Street, will solve the problem for the workers. That problem is freedom from exploitation, from wage-alayery and the thousand evils that flow in the wake of this robber system. Only thru a workingclass party based on the clean struggle and aiming for the concepted of power for the work and the control of wall street, can this country be freed from the present nightmare of want and war, and industrial anaroty.

7. Party papers in all illanguages must give special attention to the election campaign supporting the party campaign in every way possible.

We must make consistent use of the election campaign for the upbuilding of our for the country of the purpose of the election campaign for the upbuilding of our for the upbuilding a similar appeal.

Communist candidates are in the field this year against the Wall Street parties and the so-called "progressives." This result was achieved when the National Conference of the Workers Party, meeting yesterday, following the withdrawal of the St. Paul ticket of the Farmer-Labor Party nominated:

WILLIAM Z. FOSTER, of Illinois, for President; BEN GITLOW, of New York, for Vice-President.

The Workers Party Conference was held at Imperial Hall, 2409 North Haisted St., immediately following the gathering of the National Executive Committee of the Farmer-Labor Party. In withdrawing the St. Paul candidates, the Farmer-Labor Executive Committee declared that the Farmer-Labor forces of

Davis and Bryan

At last the democratic circus at New York has ended. Those who looked forward to the party of Woodrow Wilson becoming progressive have been keenly disappointed. From the platform down every step taken by the convention, every town, every sup taken of the contention, every resolution adopted, every word uttered, every man ouver engaged in, every blow struck by the bosses has been in the interest of capitalist reaction. The apogee of reaction is of course reached in

The apogee of reaction is of coarse reached in the choice of standard bearers. When John W. Davis was put over by the Brenana-Taggart-Bague-Gingley alliance after the 100th or the 103rd bellot it was obvious that big capital has secured unquestioned and unquestionable domination in the democratic party. The petty boargois interests, the agrarian interests, the cotton interests of the South and the rising capitalist interests of the West have all been crushed by the "mon partisan" Wall Street group of the Eastern industrial area.

"mon-partisan" Wall Street group of the Eastern industrial area.

John W. Davis is a sturdy, tried and true steed herd and trained in the filthiest stables of the big-gest business interests. Davis is entitled to wear the budge of eapitalist reaction even more than Coollege. Davis is a professional expert in the service of Wall Street. He is not only inclined to serve the railing capitalist clique, but he is an adept at delivering the goods. Davis is not only the legal brains of the Honse of Morgan, but he is the international minospring of the Honse of Rockefeller. Enjoying the backdoor confidence of Rockefeller. But it does not say that the capitalists are responsible for the condition that unakes chartly necessary. It does not tell the workers they must own and control the means of wealth production before they can glist over the condition that unakes chartly necessary. It does not tell the workers they must own and control feed on.

The DAILY WORKER does not run chartity drives. It tells the workers, the only class, strange to have enough fails in the operation of our banking laws to believe that the asset listed are bond from the probler capitalists off its back. Presidential Candidates

Well, well, So that was what-it was all about! The one-hundred-and-three ballots were for the purpose of putting the atternay of J. P. Morgan & Co. on the democratic ticket, to balance the presence of Charles G. Daves, member of the Morgan system, on the republican. without question the decision in New York makes the candidacy of LaFolletts, more over-whelmingly than ever the candidacy of the middle class, of the small bankers, merchants, professional men, and rich farmers. What there may have been of a labor tinge given to LaFollette by the C. P. P. A. gathering at Cleveland, is over-whelmed in the flood of aspiring young lawyers that will sweep into the LaFollette train and will file for office as "independents" under the LaFollette banner.

It seems a shame that those poor ladies and gentlemen who had the ceremonial duty of ratifying the choice of Davis should have been held in New York for so long in the hot July wearbase. Attorney General Harlan F. Stone has just told the American Bar Association that the standards of Justice were slipping fast in the United States. Mr. Stone attributes the "decline of justice" in the last generation to the fact that men of inaminical tendential conditions of the state of public processor. He also proposes that the office of public processor be taken out of politics.

We have no quarrel with the attorney general as to his low estimate of American justice. In so such adjust illies justice. The American courts are for hamy years been the stables of the sturdy steeds of capitalism. Our aristocarry of the robe has become an aristocarry trialling in tyramy the ruling agents of the dominant classes of the past. Protident Besqimini Harrison has once declared that "The principal function of the law is to keep the poor in subjection." This has been the history of justice for the workers in capitalist American.

SHOW LOGGERS' RIGHT TO SHOOT RAIDING LEGIONAIRES

SEATTLE, July 11.—Agitation for the release of the eight Centralia loggers serving 25 to 40 years in Walla Walla peniteriary has taken on high speed this week with the uncovering of the most important evidence against the Legion raiders that be been bared since the famous Montesson trail four years ago.

Three eye withessee to the Armistice Day battle—all well mown residents of Centralia—have broben the veil of silence woven in the days of terrorism that followed Armistice Day, 1919. Against Wars of Capitalism

THIS month marks the tenth anniversary of world capital-ism's most bloody conflict, the European war of 1914. In response to the call of the Communist International, the Communists all over the world will direct a whole week's effort against the wars of capitalism: against the new wars that threaten to hurl the workers of the nations against each other in mutual murder.

that threaten to hurl the workers of the nations against each other in mutual murder.

The Workers Party of the United States will lead in this attack on capitalist wars in this country.

One of the mest powerful weapons, in this country, in carrying on this fight will be the SPECIAL EDITION OF THE DAILY WORKER, dated Saturday, July 26. The whole Magazine Section of this Saturday, July 26. The whole Magazine Section of this Saturday, si sissue will be given over-to exposing capitalist militarism, and revealing raccies in many lands.

This Special Edition will appear on the eve of the Special Week for Combatting War, July 27 to August 4th, Bundles of this issue should be distributed in every city and hamlet of the land. Bundles should be on hand for such and damits of the land. Bundles should be on hand for such and damits of the land. Bundles should be on hand for such and damits of the land. What a staggering price the operation of the hige governmental apparatus, need with unfailing regularity against the working masses demands, is reflected in the fact that the total cost is equivalent to a sum sufficient to meet the payrolls of the automobile industry. Chicago, July 15, 1924

EUCENE V. DEBS: — Your statement in support of La Folletts, which appears today in the capitalist press, is an astounding document. In spite of the indications previously given that you would allow Hilliquit to carry the socialist party into the camp of the Wisconsin senator, your complete capitulation to this petty-bourgois reformer will-come as a shock to thousands of workers, who look upon you as an snemy of the capitalist system.

But what will the workers, who have followed you for so many years in building up some sembiance of Independent political action, now think when you abandon it all and give your unqualified endorsement to the personal campaign of an individual who is not only NOT a Socialist, but is an arowed anti-ocalisist? What will they think when they see this personal candidacy, with your endorsement, destroying all the traces of independent political organization built up thru years of painful affort?

You seem to believe that La Follette will, in some unspecified future, help you to build a labor party. Did ne give any signs of such intentions at Cleveland? Morgan Plans New Victory

By J. LOUIS ENGDAHL

THE House of Morgan plots today for new victories.

The scene is in London at the gathering of the interallied Conference that will consider the so-called Dawe

The House of Morgan triumphed at the republican con-

vention at Cleveland.

The House of Morgan was the winner at the democratio convention in Madison Square Carden, New York City.

At London today the House of Morgan also plays for big stakes. Representatives of tan nations await its orders, and the Wall Street Journal is very confident of the fesuits, another victory for the House of Morgan.

The Parls correspondent of the brokerage firm of Dow, Jones & Co., has just had a talk with "one of the members of the Reparations Commission," vidently Owen D. Young, Morgan's man. In the correspondence published in the Wail Street Journal, on Monday morning, it is declared that "opinion is optimistic here because it is obvious that the new Padi-

ion is optimistic here because it is obvious that the new Radi-cal Government (Heriott) has taked its whole future on a speedy reparations settlement, and because it is not believed possible that Germany will pursue a policy of obstruction." In other words, the publicity agents of Morgan, at Paris, are just as sure of the surrender of the French and German governments to the Wall Street financier, as the big bankers were of the capitulation of the two old political parties in this country.

The German capitalists need the loan that Morgan has promised in order to safeguard their position against the rising discontant of hungry and jobless workers. And French want the Germans to get the loan so that they, the French, can get their hands on a good chunk of it. The Heriott government needs the money to help it out down taxes, a compaign hidde.

riott government needs the money to help it out down taxes, a campaign pledge.

Morgan's man, Young, is polite in refraining from caustic remarks on the grip that the House of Morgan has on the grown to remark on the grip that the House of Morgan has on Western Europe. His southing words are:

"We must wait for the interalitied Conference in London to register to formal adoption of the soleme by all conserved, including Germany. Garmany must then draft the requisite legislation on the basis of the repros of the various cathonical committees which are now pretty wall thru their work—I meen those on the new bank, on the railroads, and on the Industriel debenture. That legislation, if all goes well, should be thru the relokate in August. We can then get things started in aarmset. But explowe, the world's marketes and to titled to be ripe for darman toens, including the initial \$200,000,000 one, until September or Ootsber."

What Mr. Young should have said would sound some

What Mr. Young should have said would sound something like this:
"The House of Morgan, with the richest nation on earth, the United States of America, at its feet, stands ready to finance the capitalist nations of Western Europe against the rising tide of the Workers' Struggle for Power.
"But this will mean that the House of Morgan must extend its dollar rule over these nations, safeguarding its icoans, and compelling the workers and farmers of Western Europe, at the point of the bayonest to pay to the last cent.
"The House of Morgan will have the support of the United States Navy and Army to carry out the work of its collecting agency."

If the Europeans would doubt these orude words that Mr. Young ought to have said, the Wall Street emissary would only have to refer to Haltl.

United States marines have slaughtered 3,000 natives of Haltl for struggling against the rule the House of Morgan now plans to care against the rule the Mouse of Morgan now plans to a street described the said overmane, elected under their supervision; where an Amarican financial adviser acresica sabelists control over finances, collecting customs and making loses which the United States government gueranters, the sation's constitution was rewritten to permit the sequisition of lend by United States comparison.

The Cermans, and other European peoples, will find the above paragraph in an article by Samuel Guy Inman, in The Atlantic Monthly, a perfectly respectable magazine. In that paragraph they will learn what Morgan has prepared for them. There is only one alternative—a worker's resolution that will overthrow Morgan rule, nationally and resolution that will overthrow Morgan rule, nationally and made the first war loan to the Russian czar, the war that ended when the First Workers' Republic rose out of the blood and agony of that great conflict. Today, as the bloody imperialists meet again in London, under Morgan's thumb, the workers of Western Europe, under Communist Inspiration of the Mail-European Soviet Republic that is to be—In SPITE OF THE HOUSE OF MORGAN.

The Dark Days of 1921.

In order to give you concribe proofs of the success of the Rhasian revolution and to show you the indisputable earmarks of its rictory, it will be well to recall to your mind the tragic state for affairs pervailing in Russia in 1921, at the time of my jast visit. Those were, indeed, days to try men's sonis. The people today look back npon them with a shader. Industry and agriculture were at a standatill. The long years of the world war, the civil war, the blockade, the capitalist absorbage, and all the other npheavais accompanying the revolution, had done their deadly work to such an actent that the mass of the population, agricultural as well as the standard of the s

evidence that one was cheating and getting more than one's shure of the famine ratious.

The workers lived on a diet that would territy Americans or west Enropeans. They were lucky lineded if they got regularly one-half to one pound of black bread daily. Many times I visited them in fauroties and watched them earther there borrible fare. I have seen the 'soopl', which was cooked in community fashion, so foul that one could smell the stend of it rooking in the great put long before coming into the factory. Often, after the workers had worked; where was nothing whatever to give them, not even the milerable payok tration. I myself saw, right In a key government office, where every effort was undet to keep things going, when they had to led the workers at the end of the work's work that they had no brend to give them. The result was demorali-

sation of the working force. In the same important office I saw carpenters, called to-past in a job of adelving, beg first to be given some bread before they would go to work. Imagine the demortaling effects of wash a terrific food shortage, which ran all through the industries. The shortage of other necestiles was plat as had. Clothes and show were practically upprocurable. Many people had not had a single new garment for several years. Particularly vivid in my mind were the conditions of privation which I saw at a normal school in Moscow. The professors were hungry and in rags, likewise the oppers with atrings. But they were going ahead gamely, reorganizing the whole method of teaching. Their only particular complaint was that their new methods ladd more stress inpose the new graphers with a trings. But they were going ahead gamely, reorganizing the value that their new methods ladd more stress inpose the new graphers with a trings. But they were going ahead gamely, reorganizing the value and the same that their new methods ladd more stress inpose the new graph and such things were unbellevable scarce. Those on hand, were irreplaceable. To break even a pane of glassa, which could not be produced by the wrecked industries, was aimmet a crime. Housing conditions were frightful. In many places the people, were literally tearing the honses to pieces and burning them for ful. In 1921, the Russian rely workers were starring, freezing, and generally impoversised; and as for the peasants, tuned to be one of the most territhe famines of modern times. It was a desparate situation for, the revolution and an acid test of the Russian working class. She capitalists of the world

many millions of them were just sinking into what was destined to be one of the most terrible famines of modern times. Those year the terrible days of 1921. But how different is the situation in 1924. A great improvement has taken place in the condition of the people, which means that the revolution is patently succeeding. But theore yong into details as to how and in what degree this improvement has taken place, let me deal awhile with a few general impressions and indications. Every place one turns one sees virible signs of the economic recovery, to people are smallestly stronger and healthful control of the control of the

Likewise there is still much discontent among the masses of workers at their hard lot, but this discontent is no longer connecter-evolutionary, or available for counter-revolutionary, or available for counter-revolutionary, or available for counter-revolutionary purposes, as it was, asy, at the time of the Kronstate refolt in 1921. There are still some strikes, but they are of a minor character, and the era of desperate, but they are of a minor character, and the era of desperate, but they are of a minor character, and the era of desperate, but they are of a minor character, and the era of desperate of the content of the era of

The Revolutionary Workers.

The Revolutionary Workers.

In the factories the workers' revolutionary spirit hurns high. They are pollitically the best educated workers in the world. They are great internationalists, following eagerly the events in all countries. They are especially interested in America, home of the highest technical industrial development of the control of the property of the world revolution and they are doing their chartest they are the second of the condition, they rally with funds and other aid to every mass movement of workers in Europe making a real fight, and when the opportune time comes they will give more substantial aid with the RedArmy. They are the backbon of the Rubr relief, and the International Red Ald. Indeed, sometimes the milons have to forbid collectors for various revolutionary causes from going to the factories to sak assistance, because the militant workers will always vote a day or two's pay, rithough to do so means to work real hardship upon themselves. In other respects the workers are equally militant. An interesting Illustration of this took place while I was in Moscow. This was in the election of the committees that manage there had been a tendency to be lax in this matter, with the result that Nepmen and other unscrippions, non revolutionary elements, got control of the housing committees in many buildings. They then proceeded to me their control unfairly, dring furored friends. Resides, they regive out the mode allowed them to full into discreption. But In the election of the committees this Pspira, the workers cleaned up on the non-revolutionary elements, driving them out of control everywhere. It was a most interesting phase of the class striged and it caused much comment throughout the places affected. (To Be Continued Tomorrow)

Some Wise Words by Poor Boob of an Earl

By J. LOUIS ENGDAHL

By J. LOUIS ENDOAHL.

TODAY, Archibald Kennedy, Earl of Kassillia, First Orand
Principal of the Supreme Chapter of Royal Arch Masone
of Sortland, passed thru Chicago.

The Committee of Co

probably worse for them, they would be compelled to go to work.

But there is something that the Earl said, that gives a little distinction to his stopover in Chicago. The Scotch Earl, loyal jingo of the British Empire, is of course anti-German. He, therefore, thoughe-ke was eaying something worth while when he attacked Germany's reputed poverty. He said:

"You see them (the Germans) everywhers; stopping at the best hostel and spending money laviably. There may be meny poverty-brother and spending money laviably. There may be meny poverty-brother he between a stag many washing once. The Continuous of the Political Contract.

Perhaps that is a Sooth joke. If it is, the Earl may wake up some day to find himself the butt of it. The Earl talks as if he expected to meet hungry, jobiese German workers travelling around over the world "Seeing the Sights on an empty stomach, elegang in the parks, no doubt, and travelling blind baggage or stowaway. Somebody ought and travelling blind baggage or stowaway. Somebody ought many are right at home in the alumn of the green in Germany are right at home in the alumn of the green in Germany are right at home in the alumn of the green in Germany are right at home in the alumn of the green in Germany are right at home in the subject of the green in the subject of the green in the subject of the green in the green

But the book Earl didn't realize; that he was hitting away at the pillars of the whole capitalist soolar structure when he declared that the condition of the theory the rule of the rich; not only in Germany, but everywhere, especially in his own Great Britain.

The British capitalists were among the first to make overtures in support of the German capitalists for the purpose of keeping the hungry and discontented workers of both nations in chains. British bankers and industrialists, was the standard of the control of the cont

stricken of Germany in chains.

The poor fool of an Earl Isarned very little on his "Round-the-World-Tour" if he didn't discover that "poverty and riches" is a condition that exists in every land he visited.

Of course, he didn't go to Soviet Russia. The First Workers' Republic is not a comfortable place for an Earl to go visiting. He would there find everywhere the signs of the passing of the own observed with the own of the passing of the own observed with the own of the passing of t

Princes, the Earls, the Counts and all their lackeys. That would be tough on the Scotch Earl, Archibald, and all skind.

Truly the workers could then put some spirit into paraphrasing the Earl's words by saying that, "Our new condition, is due to the change in yours," and, "We like the change, and we are going to make you like it."

RUSSIA IN 1924

I saw two demonstrations while in Moscow this last trip which were illustrative that the revolutionary fire is still burning brightly, hoefile critics to the contrary, notwithstanding. The first was on Easter merning. This was a great holdary in old Russia. The celebration this year began at midnight, and although it was already late in April, a full foot of snow tell in the evening. The whole town became alire, the old folks going to church and the young ones demonstrating against the whole religions ummers. I visited many churches and found in them only mere handful of old human relice of former times, croepi in the case of the cathedral, which was the religions, except in the case of the cathedral, which was the religions, except in the case of the cathedral, which was the religions of the contract o ations while in Moscow this last trip e illustrative that the revolutionary fire is still burnwhich were illustrative that the revolutionary fire is still burning brightly, hostile critics to the contrary, nothwithstanding

By WILLIAM Z. FOSTER

The moet striking thing about the celebration was the boundless enthusiasm of the marchers. Nothing could kill it. How they roared out the revolutionary alogans, always ending, with the leastly Reastain "Hura". During moet of the parade a dirting rain prevailed. But it did not dampen the spirit of the workers, much less break up the procession. I picture to may be a superior of the workers, much less break up the procession. In the picture to superif what would have happened to an American parade to superi what would have happened to an American parade to such a torum; it would have gone to picces in 10 minutes. But the sturdy Russians were undismayed by the cold rain. They tood in it and marched in it for hours apparently oblivious to all hardships. Not 2% of them left the line. The masses were out to celebrate the great day of the working class, and a storm or two, more or less, could not hold them back.

masses were out to celebrate the great day of the working class, and a storm or two, more or less, could not hold then back.

The great parade was made up of creey conceivable unit of the workers, their wires, and their children. There were trade unions, factory groups, Red Array units, showed the country creaties, athletic societies, Party branches, and a cross of other formations. All marched together in one great fraternal demonstration past the mausoleum of the dead 'resius of the revolution, Vialdmir liytich Lenin. There were tens of thousands of children, some so small that they were noable to keep the pace of the main body and had to murch on one side. Multitudes of women were in line. There were a thousand interesting characters, men carrying their children pick-aback, war cripples struggling along on crutches, old patriarchial looking peasants, who somehow found themselves in Aown and in the demonstration. One man I met I will never lorgest. He was a Red Army officer, a Cosseck S2 years old. How the structure of the st

TODAY, Mr. John F. Hylan, mayor of New York City, with his wife, is spending leisure hours on William Randolph Hearat* California ranch, overlooking the Paofia Cocana Over the country the Hearat sheets deliorally declare that, "The rest will do him (Hylan) good, after months of hard work."

Front page space was accorded the Hearst-Hylan tour across this country, from New York to California, with pictures galore.

But, TODAY, tha tired and miserable workers of New York City only prapars for another week of broiling toil. They have seen the Tammany Hall mayor, Hylan, go to Palm Beach, Florida, in winter, to the races at Saratoga Springs, in summer, and now across the country as the guest of the multi-millionaire publisher.

Yes, it is Wheeler who will run with LaFoliette, is the personally conducted crusade to turn the reason oit, Aside from the fact that this repeats the performance of the old parties, in ignoring the demand for a "lubor" man of the Berry or Levis type, there is the further interesting fact that Wheeler, running with LaFollette, anonnees that Wheeler, running to Walsh of Montana, who ompWheeler announces he "remains true to Jeffersonian democracy". LaFollette is a "Lincoln republican." Both remain in their respective parties to join in a personal independent presidential campaign. Their supporters scatter their votes thrut the old parties, and "defresonian democracy and Lincolnian republicanism" is pectained by everyone, including Davis and Coolidge.

In my book, "The Ressian Revolution," written after my return from Ressia in 1921, I stated that there were three great problems that the révolution, since its beginning in 1917, and had to face, 11 governmental, 2) military, 3) -industrial. By that time the first two of these had been actually overthrowing the old regime and establishing the dictator-ship of the protestrait, but they had also succeeded in directing their rule in the face of the hostile capitalistic scale of the control of the

volution is being assured. But let us glance very briefly at
what has been done with elch of the problems mentioned.

Of all the treating for billockade.

Of all the treating for billockade by which the capitalist, world tried to
strangle the revolution to death. It was worse in its effects
than the world war, the civil war, the wholesale ashotiage, or
any other single Vactor. It was death to the economic life
of the country. Before the war, Rousia did an average export
business of 1,504,000,000 rubles, per year; of this 90% constated of agricultural and timber products. Of the peasanta'
total products, 45% was thrown upon the market, about half
of this going abroad. But the world war, followed by the
revolution and the blockade, completely destroyed this foreign
arde. Agriculture was rained for want of a market. The
same happened to industry. Not only was the importation
of vital manifactured good and machinery necessary to the
life of industry, completely stopped, but on the other hand,
of vital manifactured good and machinery necessary to the

For this, the blockade, not the great drouth, was primarily
to blame, because, under ordinary circumstances, with a normal production of crops. Russia cond have handled the famine

mal production of crope, Rassia cond have handled the famine altantion entirely with its own surpius.

From the beginsing, the Russian economiest considered breaking of the thlockade and the opening of the world market to Rassian trade of the most vital consequence. I remember a long talk I had in 1921, on this subject with Comrade Martens, formerly Soviet Envoy to the United States. He said that the fate of the revolution probably depended upon the breaking of the blockade. And when I saw him again this year, he had not changed his opinion. He measured the economic recovery of Russia pretty much by the extent to which it had succeeded in winning its way hark again into which it had succeeded in winning its way hark again into the most determined efforts to break through the death coshon wrapped about them by the International capitalist class. And these efforts have been a success. By playing one nation against the other, that is by getting separate sections of world capitalist to scah upon each other, the Communists have broke up the united front of the exploiters and have forced their way through the blockade and into the world market. Today a whole row of countries have been compelled (compelled in the right word) to grant Russia either compelled or produced that even that reactionary country, one of the main points of resistance against Russia, with which have to adminish the control of resistance against Russia, with which have to add Bolsbertii. TODAY, Lazarus L. Davidow, a young lawyer, is a candi-field for congress in the republican primaries in the Third Michigan District (Detreit). Davidow is important only as a sample of one of many young Americans who have drifted out of the revolutionary movement into the old political parties, joining up with the harlots of Wall Street. Davidow was formerly a member of the socialist party. He may be yet, under the socialist allience with LaFolletts.

It is said that Dayldow carries a soar, the result of an assault by the agents of the white serror, when he sought to defend the victims of the Palmer "red raids" against the terrorists in January, 1920. It was in Detroit that these raids were carried out in their most brutal form, thousands being herded into custody, "for examination," being "under supploin."

Parhaps that scar mocks at Davidow in his more honest moments. Davidow remained with the socialist party in 1919, when the revolutionary exodus from the socialist ranks began. Davidow made the arrangements for the national socialist convention, held in Datroit, Mich., in 1921. Altho sympathetic to the "Committee for the Communist international" he still remained in the socialist party when

It is significant that it was at Detroit that the socialist party launohed the policy that has this year delivered it into the ranks of LaFolietts, the old party politician.
The youth of the socialist party were given two altermovement and continue their revolutionary activities in the world struggie of labor. Or they could refenal with the socialist party, gradually dilute all pretenses to being revolutionists, and finally fade out as the counter-revolutionary allies of what has become known as "the left wing of Wall Street."

allies of what has become known as "the left wing of Wall Street."

Davidow turned his back on the Communist movement. He has seen the socialist remnants in Detroit, and thrucut the state of Michigan, as of the nation, gradually dissolve. Davidow saw the socialist party endorse the republican, LaFoliette, for the presidency. He has seen many socialists go over to the old parties, from William H. Johnston, president of the international Association of Machinists, and down the list. Then why shouldn't he, also, take the same step? He did. He is now a republican candidate for congress, in the state where Newberry, the millionaire republican, bought a seat in the United States senate for \$750,000.

Davidow is no isolated example. He merely indicates the tendency. The socialist party lost nearly all of its younger members to the revolutionary Communist movement. The remainder have gone the way of Davidow. And an organization without youth dies.

Such are the results of the teachings of the socialist party of Morris Hillquit and Victor L. Berger. And it still calls itself socialist.

Toller, Freed, Has Much to Write About

By J. LOUIS ENODAHL.

TODAY, Ernst Toller, Germany's dramatic genius, is free again after five years in a Bavarian prison. Toller's crime was being one of the active leaders in an attempt to establish the Bavarian Boviet Republic, in 1910

The Eables tell us that Toller appeared "pale and ema-ciated," before a Reichstag committee protesting against the prison treatment he and other workers had received. But the latest picture of Fritz Ebert, the socialist president of Cermany, shows him as fat and eleek as ever. In fact, Ebert has been in prison. And Ebert's ecül-democratio (socialist) party was, during most of that time, the most powerful political power in the land.

Tolier brings back startling contraste from his prison experiences under the Ebert-socialist rule.

Long prison sentences were given to revolutionary workers while the enemies of labor were acquitted "because their political affiliations were more to the liking of the judges."

judges."

Imprisoned workers were not allowed to visit their dying mothers, in several cases, and another was not allowed to strend the buriet of his child. One prisoner was punished because a revolutionary peem was found among his belongings, and another was put in a strait-jacket because he had failed to give up a copy of a Communist paper in his possession.

In his possession.

BUT:—
On the other hand, Adolph Hitler, the leader of the Hitler-Ludendorff fascist attempt at a beer hall counter-revolution in Munich, last autumn, and Count Arco, the murdear of Kurt Eisner, the Bavarian workers' premier, readed to the season of the Miller was allowed to nestee visitors in prison. Count Arco had almost unimined freedom to leave the prison for "political reasons" and to "pursue his studies." The Bavarian authorities prevented a Reichstag committee from investigating Bavarian prison conditions, and systematically disobyed German prison laws, such as they are.

It sounds like a review of American prison barbarism and the studies of the

Ance of power.

There comes another story out of this "socialist" Cermany that would indicate where "socialist" sympathies lie. It is the story of a young apprentice painter at work on the Berlin City Hall.

He saw a picture of Wilhelm Hohenzollern, the late Kaiser, surrounded with Imperial pomp. It was a sight he did not like and he swished his brush, dipped in black paint, across the picture, so that Wilhelm's visege vanished behind a murky smudge.

Then along came an infuriated city official who, as he beheld the slight, began calling the painters' apprentice rather hard names.

The apprentice is reported to have replied, "What I did was right. That picture of Wilhelm does not belong to these republican days."

It is said that this so enraged the monarchist official

tress republican days."
It is said that this so enraged the monarchiet official
that he shouted, "Co and paint your President Ebert as
black as you will. I haven't any objection."

But, of course, that is not necessary. Ebert and his fellow German "socialists" have painted themselves as black as can possibly be done. All of which the young painter was no doubt aware.

For painters are usually apt to be thinkers. Especially young painters.

This young painter must have known, for Instance, that under Karl Severing, the social-democratic (socialist) minister of the interior, the Buston-Zeitung, the labor baiting mouth-piece of the reactions. The second of the socialist, misself and that the Italian fascial dictator, Mussolini Martinett and the work of the socialist, Matteoti. This sheet, tolerated by the socialist, democracy, declared:

"Mussolini's attitude was not heroid. He should have taken the stand that Matteotit was an enemy of the Fascista State of Italy. There was were no reason to regret the end of this social-democrati (Matteotit)."

A monarchist sheet published that under the "socialist" regime of Fritz Ebort, president of Germany.
And in the same hours the Communist daily, in Berlin, the "Rote Fahne" (Red Flag) was ordered suppressed for two weeks because it urged revolutionary mass action of

the workers.

Ernst Toller should surely find much material for his dramatic genius in the transition period thru which Germany is now passing—From Capitalism to Communism.

Mobilization and Pacifism

Somehow we cannot get enthusiastic about the act that some peace societies are issuing process against the mobilisation order of the War Deartment for September 12. Protest and demuniation of the mobilisation are in order, indeed, for partness for September 12. Protest and degran-ciation of the mobilization are in order, indeed, for it is definitely a more of American imperialism in preparation for another war, into which the work-ers of this country will soon be thrown. The work-ers should be mobilized against the mobilisation, war should be prepared against the threatening war, and every move in that direction must be warded to the country will be a support of the country pacifiat, societies, someway or sider, sound rather fair.

Techaps that is because we recall other days, when pacifast societies, passing such resolutions, are pacified societies, passing such resolutions, are not sealily as an aid to the war makers. The latest the sealing and the sealing societies are pacifiate, in a world and assembly the sealing societies in the left in passe with their small aloop, their literary clubs, and their churches. And when war comes again, as it will, they will again proclaim that true pacifiem consists in fighting the national enemy while perserving "pacer" at home by shooting and jailing the Bolsheriks.

RUSSIA IN 1924 - By WILLIAM Z. FOSTER

Closely related to the stabilization of the rube, was the problem of balancing the state budget. This, too, has been almost accomplished. For several years after the revolution there was practically no budget. The situation was chaotic. Questions of state income and expenditure were jargely matters of speculation. This was the natural result of the tremenflous revolutionary supeared, the civil war, and the other factors that shook things up seperally. However, within the past three years, not only has the budget been built up, but expenditures have been practically balanced with income. This year the state deficit will be only 10 per cent, and next wear it is hoped to wipe it out altogether.

past three years, not only has the budget been built up, has expenditures have been practically balanced with income. This year the state dedict will be only 10 per cent, and next year it is boost to wige it out altogether.

The accompliabment of these two vital financial measures, the stabilising of the ruble and the balancing of the budget, are doing much to put Russian industry on its feet. They lead directly to economy and efficiency in every field of activity. At last it is possible to make head or tail out of what is going on with regard to costs and prices. Industry and the programment will now go ahead on a surer basis than ever. It is just so much solved of the general economic problem that almost overwhelmed and drowned out the Russian revolution. The New Economic Policy was introduced. The situation was a desperate one. The Growing Fear that Grows Greater

By J. LOUIS ENGDAHL.

TODAY, Dwight F. Davis, Assistant Secretary of War, goes among the summer school students at the George Washington University, and urges upon them the necessity of military duty.

The war makers in Washington and Wall Street are frightness at the success of the attack on Mobilitation Day, Sept. 12. The hirsings of those who arge mutual human square as a cure for international problems must therefore get busy.

Sore get busy. Davis throws up the usual smoke screen. He done the camouflage that has always been used by the war makers, that the young "should be willing to accept military duty in war time along with the enjoyment of the privileges of citizenship during peace."
With a straight face, the result of long practice, Davis declares that. "The people, thru their legislators, declare war."

declares that, "The people, thru their legislators, declare Everyone who reads and thinks nowadays knows that a legislator has as little to do with the making of war as a wrecked bridge has in producing the flood, that sweeps it from its moorings. Capitalist lawmakers are merely told about a war declaration as an after thought. The bridge does not know of the flood until it gets hit by it. The plot wars in the dark places. It is only years afterwards, after the war is over, that the light breaks in.

atter the war is over, that the light breaks in.

it is good that the war makers fear for their jingo Mobilization Osy. It is an indication that they are beginning to realize that the workers are no longer hypnotized by threedbare nationalistic appeals to passion. They stand aghast at the tremendous and growing response to the call of Communist Anti-War Week, July 27-August 4.

As they prepare for the letting of new rivers of human blood, they tremble lest Communist exposures recall to vividly to mind the underlying facts and horrors of the great slugghter that began just ten years ago, and endured that four years of the most bitter agony the masses of the world have ever known. An oppressed class had again been successfully chalmed to the war charton of its masters.

Everywhere the crises are heard in the fermion of the control of the masters.

Everywhere, the crise are heard in the factories, the shops, the miles and on the farms, "Shall it be again?" The reply, of course, must come from those who toil, in the cities and on the land. They must decide their own destiny.

toil, in the cities and on the land. They must decide their own destiny.

It is the workers and farmers who must war against threatening war in the days of peace—mere breathing spills between wars.

It is the workers and farmers who must raise the sword of the social-revolution against the beast of capitalism, thirsting for human blood.

It is the workers and farmers who must raise the standards of civil war against their masters, rather than behalfned as galley slaves to the capitalist wars of the money changers.

changers.

Dwight F. Davis, the assistant secretary of war, and his masters who sent him to address the students of George Washington University, see the drift of sentiment away from their wars in support of the war of the workers and the farmers for their own emancipation. What they fear the They see farmers should embrace as their only hope of freeing themselves from the gailing chains of wage slavery. Let the workers and farmers greet with lyo every new opportunity to struggle for the creation of the Soviet rule that will open the way for the ushering in of a Communist order of society, when the World Republic of Labor will sweep saids eall national boundary lines and all human beings will live pracefully and happily in a common brotherhood.

Workers' Rule Is Only Morgan Fear

By J. LOUIS ENGDAHL.

TODAY, James Pierpont Morgan, of Wall Street, le packing his grips for a hurry-up trip to London and Paris. He leaves Saturdo, or. of the office boys to Mr. Morgan will be Frank B. Kellogg, American ambassador to the court of St. James. All American ambassadors and conculs abroad are will be seen to the court of St. They are the Collar diplomate of Wall Street.

the office boys of Morgan. Insy are the coulse upportance—Wall Street.

But it is especially significant that the St. Paul corporation lawyer, Kellogg, should run the errands of Morgan in London, on the other side of the Atlantic.

Kellogg has been promoted. He was formstly only the hirsling of the bankers, grain gamblers, railroad interests and the great landlords of the northwest. Now he works for Morgan.

and the great landiores or the months of the great landiores of the Great land of the Great land of the Farmer-Labor candidate, Magnus Johnson. Big business takes care of its own. It is taking care of Kellogg.

Just as soon as they had elected Magnus Johnson, with his fellow senator, Hendrik Shipstsad, they turned against the Farmer-Labor Party Idea. They opposed the class party, The grand old party of Wall Street, the republican party, was good enough for them, and they are backing a republican, LaFollette, for the presidency.

van, Larollette, for the presidency.

Johnson and Shipstand dodged the St. Paul convention of the National Farmer-Labor Party because, they olaimed, it was controlled by the Communists, and the Communists had their orders from Moscow. They wanted to hold their petty political jobs-by playing in their own little barnyard. They said they must have no connections that would give the subsidized an opportunity to charge them with being internationalists. of being contaminated with a world-variety of the problems confronting the workers and farmers.

But Morgan has no such qualms. He considere the whole world his backyard. His whole capitalist press gives him an ovation whenever he goes abroad to ensist was nations to Wall Street rule. He didn't want it known that he was sailing Saturday, on the Minnswakak, because, in his own words, spoken to a New York Times reporter, "If I do, I'll be met by a hundred photographers."

But Morgan changed his mind. He knows that his own brass check press likes to flaunt his picture before its deludde readers, still ensiaved to the great man idea.

deluded readers, still enslaved to the great man idea. Morgan goes to Europe absolutely assured that he leaves the United States in safe hands. Coolidge, Davis or LaFolistte—it is all the same. None of these threaten Morsants are in daily contact with such men as Fremier MacDonald, of Creat Britain, and Premier Herriot, of France, man much more radical than LaFolistte, But none of these—MacDonald, Herriot or LaFolistte, stand for the only thing that Morgan fairs, the substitution of Workers' Rule for Bosses' Rule. The financial budget that British capitalism has sever had. Herriot is filling Poincare's boots to parfection. LaFolistte would not disturb, let alone overthrow the equilibrium of American capitalism.

If the workers and farmers of the United States want an argument why they should not vote for LeFollette and his "left wing of Wall Street" ticket, let them watch Morgan twist MacDonald and Herrict about his little finger, and get all that Wall Street wants. Morgan uses in Lovanier and the Paris. He will continue to rule there, as in Hashington, until his dollar dictatorship is swept saide by the rice of the Soviet Power of the workers and farmers in all these countries. If the workers and farmers of the United States want

Soviet Power of the workers and farmers in all these countries.

The victory of the workers and farmers is not in the gift of MacDonald, Herriot and LaFollette. It cartainly does not lie the way that the Magnus Johnsons and the Handrik Shipstands seek to mislead those on whose backs they have been lifted into prominance. The provided has been seen to be the seek of the seek o

One of the finest things about Rusefan industry now is just this spirit or self-imposed disciplina. The old concrive measures are done away with forevers. A visitor to any factory is always struck by the fraternal spirit prevailing between the workers and the foreneen. The conception of a bose or; a driver is now unknown in Russian industry, except as a matter of unpleasant history. This democratic fraternalism that one finds in the industries also runs throughout the social life. The workers make no pretense at formal bourgeoist democracy. They are not so foolink as to expose their new conclustive that we have a subject to the contract of the conclusion of the contract of the conclusion of the contract of the co

Revival of Industry.

Consequent upon the solution, or partial solution, of the foregoing and many other problems, as well as on the improvement of industrial management generally, which is in istelf one of the supreme problems, the industries are gradually being revired. When I was in Russia in 1921, it was the common expectation that, with the industries are completely collapsed. It would take them at least 10 years to make any real showing of recovery. But these hugubinos prophecies have been belief by the facts. The progress toward rebabilitation has been much more rapid than even the most optimistic would have dared to hope three years ago.

Although listening to statistics is tiresome, still I must indict a tew figures upon you at this point. Comrade Martens assembled the latest data for me relative to production, and years to give you some facts drawn therefrom. Agricultural production has inow reached about 15% of pure years ago.

(Statement of the Central Executive Committee, Workers Party.)

TEN years ago the great war broke upon the world. Today another world war is an imminent prospect. The workers were opposed to the last war. But in spits of their opposition they were isde unresistingly to the slaughter, and for four years they killed and malmed one another at the orders of their capitalist rulers. Millions of workers lost their lives, more millions were crippled, while women and children suffered unresorded misery. Wealth, of such aster that the imagination falters. Standing before the prospects of the new world war, what have the workers learned from their bitter experience in the last one?

The first leason of the world war is the shameless betrayal of the labor leaders, the socialists and union officials, in the standard war is the standard war in the workers the socialists, who took an anti-war position in the resolutions of the various international congresses before the war, shamelessly between the workers. In most treasonable fashion they sold out the lives and hopes

of the workers to the imperialist demands of the osgitalist masters. Only this revolutionary Communists tooks a firm and uncomproneling stand against the imperialist slaughter. It was the Communist movement that brought home the other lessons to be gained from the sayeriences of the workers in the last war. They pointed out that wars are an inevitable result of the system of society where he many toll fight the profit of the few. They pointed out that the only way to bring an end to wars, is to overthrow the system of society which cause them.

Today the workers of Soviet Russia, led by the Communists, have succeeded in establishing their rule and thus taken the first steps toward the end of all wars. Today the Communist allowers the second of the

realize the nearness of the next war. They are increasing their armise and navies, training the youth, praparing the workers in a way way for the coming, slaughter-fest! Their international conferences are of ne avail! Their Dawes' plans are leading them right into further complications and war will be the result!

Facing this situation, the workers must exert all their strength, must build up their forces, and be prepared to turn the next attempt to plunge the workers into the bloody shambles of Imperialist war into a revolutionary struggle against the war-breading capitalist system.

The Workers (Communist) Party calls upon the workers to demensionable the communistic plungers and the communistic plungers and the workers to unite their forces for the down with Militariam and Imperialist Wars!

Down with Capitaliam which sacrifices the workers for profits!

Socialists Make Sure Suicide Is Successful

By J. LOUIS ENGDAHL.

TODAY, the socialists have made doubly suré that the sul-dide of their party will be completely successful at this year's elections. They left no possible escape from sure death when the party's national executive committee issued the official con-

They left no possible accapt from euro wan, municipally and party anatonal executive committee leaves the official congressional policy stating that:
"When the confider of another party has the official endorsement and approval gif the Conference for Progressive Political Action, and the occilation graphy has no obsence of election, it may be beat, in the campaign of 1924, to obstain from making a rival momination."

Bl-ohloride of meroury or potassium oyanide are not more deadly to human life than this policy will be upon the filickering political life of what remains of the socialist party. In only one congressional direct in the land, that now represented by Victor-L. Berger in congress, can the socialists be said to possess that ephemeral thing called, "The chance of election." Everywher each of the socialists be said to possess that ephemeral thing called, "The chance of election." Everywhere the provided of the socialist political hopes of years gone by.

finds only the graveyards of the socialist political hopes of years gone by.

This is true even in New York City. There LaGuardia, the republican, who has been trailing the LaFoliette band wagon, is already in copyright to be called the work of the compelled to awallow LaGuardia as they have swallowed the "LaFoliette and Wheeler" ticket.

Under their own policy the socialists will everywhere be compelled to work for the election of old partyles. This is shown to be doubly true since it is working out in practice that the LaFoliette forces are everywhere declaring wor on the Farmer-Labor Pdfty movement.

the Farmer-Labor Party movement.

This was shown in the attack of the LaFollette following, at the Minnesota Federation of Labor Convention, against the idea of independent political action.

It was shown in the refusal of the Conference for Progressive Political Action, in Montana, to endorse Farmer-Labor Party officials, aiready in office, for re-election, it was even slapped into the face of Morris Hilliguth, himself, when Thomas E. Ryan, the New York cates legislative general party of the New York Conference for Progressive Political Action, to be held in Albany, August 16, without even inviting Hilliquit and his fellow socialists to attend. The fact that the national office of the Conference for Progressive Political Action, at Washington, appointed Morris Hilliquit, Gibbert E. Rows and Thomas E. Ryan as a committee to call a full convention, does not change the situation. Even suicides are given the last chance of a hurry-up rush to the hospital.

Class conscious workers and farmers everywhere are called upon to fight this year under the Communist standards of the Workers Party. Only ight fight for the Communist candidates, William Z. Foster, for president, and Benjamin Cittow, for vice-president, will the class interests of the workers and farmers be safeguarded in this year's provided to the control of th

The socialist party may commit suicide, as it is doing. The reactionary officialdom of labor may run after LaFollette and Wheeler in the two old parties of Wall Street. But greater and greater masses of workers and farmers, confronted daily with their own problems, will remit their class interests, enter more vigorously than ever into the growing class attruggle, and march onward, ever more confident, to the final victory.

Rising Wages—Trade Unions.

The essence of present-day Russia is that production is carried on not to line the pockets of a few social parasites, but for the benefit of all the workers. Consequently, as independently review and produces a greater mass of goods, naturally the workers get the benefit of it in a higher standard of living. Corresponding to the improvement in industry and the wages of the workers, the trade unlons are making definite progress in many essential respects. One is a substantial lacresse in membership. On January 1st, 1923, the unions totalled 4,546,000 members; on January 1st, 1923, the unions totalled 4,546,000 members; on January 1st, 1924, the figure amounted to 5,021,000. The unions actually engaged in industry, except transport, gained 35%, in membership. Prior to the introduction of the New Economic Policy, in 1921, membership in the unions was virtually compulsory. Now it is entirely upon a dure paying, voluntary system. Fully 97%, of all workers belong to the unions. Approximately 85% of them are financially in good standing in their organizations. The fact is that new supplies of workers are being assembled faster than the expanding industries can absorb them. Hence the growth of the number of naemployed, in apite of the progressive opening of the fac-tories. The unemployed are coming from many sources. Then there were the demobilization of the army and the elimination of great numbers of needless office workers and hureaucrate from the state industries and government institutions in order to balance the state hudget. Also there is the proletarianizing of the old hurgeoist, the foreing down into the ranks of the workers of the remnants of the former ruling class. These ad-

vantages are many and great. For one thing, there is the unemployed benefits, of which I shall speak in a moment. Then there are the various rebates that the workers receive. For example, an unemployed worker gets his rent free, or practically so, while a Nepman may pay, for similar ledgings, as much rent at shalf a dozen families of employed workers. In Conclusion.

Has what I have said conveyed the impression that everything is rosy in Russia? I hope not, for I have not wanted it to do so. Living conditions are still difficult, so much so that Americans compelled to bear them would soon cry quits. But the important fact is that they are a tremendous improvement over the frightful conditions which prevailed a few years ago. It is this improvement which shows the progress of the Russian revolution to success and which euconrages the workers to still greater efforts. Bad off as the workers still are, all they have to do is to think back to the civil war, famine, plague, and starvation that marked the early stages of heir death struggle with capitalism, and then their present evils seem light in comparison. They know full well that if they could overcome those avail conditions and bring industry to its present improved condition, they will also be able to vanquish the comparatively simpler problems now confronting them and to carry the revolution on to final and complete success.

them and to carry the revolution on to final and complete success.

The way taken by the Russian working class has been a long, hard, uphill struggle. It has tried the last ounce of their courage and endorance. But hard as it has been, it is the load that the whole world's working class must travel. Capitalism has had its day. It cannot be patched up and a figure to the properties of the tion will live, and as it establishes and fortifies itself, it will be an ever greater stimulus and inspiration for the international working class.

RUSSIA IN 1924

(Continued from Lest Iona.)

Rising Wages—Trade Unions.

The easence of present-day Russia is that production is carried on not to line the pockets of a few social parasites, but for the benefit of all the workers. Consequently, as industry revives and produces a greater mass of goods, naturally the workers get the benefit of it in a higher standard of iting. General wage increases have followed the increase in industrial production. Whereas in all other countries, the workers he suffered heavy reductions in wages and lengthenings of the working he sufficed heavy reductions in wages and lengthenings of the working he suffered heavy reductions in wages and lengthenings of the working he suffered heavy reductions in wages and lengthenings of the working he wage rates in various industries are as followers and the suffered heavy and the suff

developed, nearly all of which were settled without strikes, only 7% were settled in favor of the employers, which in most cases is the State. The unions are developing their educational work extensively. For this work they have organized 1582 entitural clubs, of which there are 1,000 located in the factories. In 1923, 104,000 illustrate workers were taught to read and write in the trade union schools. There are 689 trade union physical culture societies. ective agreements. Of the industrial disputes that have eloped, nearly all of which were settled without strikes.

Unamployment

As I stated earlier in my talk, the sointion of some of the old problems confronting the revolution, has given birth to new problems. One of these is nnemployment. It may seem strange at first blinsh that there should be unemployseem strange at first blash that there should be unemploy-ment in a country where the capitalist system has been killed. But such is the case, and for perfectly noderstand-able reasons. Let me explain them briefly. In 1921 there was practically no naemployment in Russia, though there was not much industry either. But the number of nuemployed workers throughout Russia is now estimated to be about 1,000,000. The number has been increased for the past year. Strangely enough, the number of employed has been growing rapidly at the same time that the army of unemployed is increasing. In nine moaths, from February to October of 1923, the total number of workers engaged in the state in-dustries increased 10%.

1923, the total number of workers engaged in the state industries increased 10%.

The apparent contradiction of the army of the numployed growing similaneously with the army of the employed, is easily explained. The fact is that new supplies of workers are being assembled faster than the expanding industries can absorb them. Hence the growth of the number of numployed, in spite of the progressive opening of the factories. The unemployed are coming from many sources. One factor is the reclassing of the proletariat that I mentioned earlier; that is to say, the coming back to the cities of large numbers of workers who left them for the country during the period of the greatest economic crisis. Those returning workers being to swell the ranks of the unemployed. Then there were the demobilitation of the army and the elimination of great numbers of necelloss office workers and bureaucrats from the state industries and government institutions in order to balance the state budget. Also there in the proletarianizing of the old burgeoisis, the forcing down into the ranks of the workers of the remnants of the former ruling class. And finally, to mention only a few of the more important factors, all kind of the numemployed in order to get the protection and advantages of being a worker-citizen. These ad-

For example, an unemployed worker gots his ran free, or practically so, while a Nepman may pay, for similar lodgings, as much reat, as half a doesen families of employed workers. Naturally, the Nepmen and their lik will not do this if they can possibly avoid it, so they make every effort to register as unemployed workers. Not all the purgings of the list can free them entirely from these chees not worker are still many. The trade union officials state that of the unemployed outpacts. The trade union officials state that of the unemployed only about 35% are union members, which means, as practically all real workers are trade unionists, that large numbers of the unemployed have only alght real connections with industry. The latest figures show that only 8% of the total union membershly is unemployed. ship is unemployed.

It is noteworthy that the unemployment in Russia is not smashing the wags scales, as always happens in capitalist countries during 'hard times.' The verification of this fact is furnished by the figures cited earlier on wage increases. The explanation is that in Russia, wage rates are not based upon how little the workers can be driven to accept, but upon the revolutionary principle of an equilable division of the total wealth produced and available for distribution among the workers. employed.

The only cure for the unemployed problem now verting Russia will come when the expanding industries catch up with the increasing anply of workers, which, if present indications are valid, will not be very long. In the meantime, however, the State, recognizing the right of the workers to either enumerative work or free sustenance, bas developed an elaborate insurance insuffiction. The law forblids the workers contributing anything to this fund. The insurance applies to worker strown ont of work for any cause. The following official table shows not only the extent to which nnemployed workers are taken care of, but especially the great improvement that is taking place in the insurance rates. The table indicates the percentage of warges paid to the unemployed.

THE DAILY WORKER

As an integral part of the Party's work, as a part of the program second to none in importance, is the great Membership-DAILY WORKER Sub campalgn, which is now under way. Above all, the task of our party is to increase its membership from the growing army of rebellious, but isaddress workers; to influence and inspire that still larger mass of disastisfied overset who by reason of their conditions of life are trips for Communist propagands. To begin the fulfillment of this task, the party now campaigns and laye down as the obligation of every party member:

(1) To secure a new subscription to THE DAILY WORKER.
(2) To bring a new member into our party.

It doesn't make much difference to me what becomes of these two young men, central figures in the latest newspaper sensation. The DALLY WORKER has published very little about this trial, because it was felt the space was needed for other matter. The parasits sons of multi-millenaires have been up for murder before. They usually win as in the case of Harry Kendall Thaw, but usually the dollar wins a speady victory. Everyone remembers the unpunished murder of a young sallor by Walter Ward, the dissolute son of the "Bread Trust" magnate.

But two figures at the trial that interested me were Jacob Loeb, uncle of the young confessed murdersr, Richard Loeb, and Albert H. Loeb. I thought that Jacob Loeb and Albert H. Loeb should have been on trial, with a broad spread of publicity, instead of Richard Loeb and Nathan Leopold. Richard and Nathan have not yet; grown old enough and the public that the province of the public in a position to become idle parasites for the rest of their days.

criminal deed upon one of their own class, vacuur raun, the father of the murdered boy insists he will have his result.

We have to the "revenge" that is due the tens and hundreds of thousands who have suffered thru the crimes of "Jake" Loeb, uncle of Richard, and Albert H. Loeb.

The Chicago Teachers' Federation was a bulwark in defense of the interests of Chicago's school children, by far the greator part of them the children of the workers, the friend of the tax dodgers, the multi-millionaire tax dodgers, who escaped millions in taxes that should have gone toward the education of Chicago's workingclass school children. The result: children stunted in mind, unable to fight the unevan struggle for existence under capitalism the battles of their class, servile slaves under the lash of the capitalist masters. Chicago's school children point this benefit of the class servile slaves under the lash of the capitalist masters. Chicago's school children point the chicago's school system; guilty of helping to continue the schools. But "Jake" Loeb is called before no court to chools. But "Jake" Loeb is called before no court to chools of the court of the present but the schools and Immuter minds of workingclass children. They are only the wage slaves of tomorrow under capitalism.

wage slaves of tomorrow under capitalism.

Albert H. Loeb no doubt prides himself upon the "system" established by Sears, Roebuck & Co. The work-women. They are drawn into the "Sears" aweathop early women. They are drawn into the "Sears" aweathop early have a father to help support them, they get along. Otherwise they go the usual road of the girl whose wages will not body knows. The grinding caseless routhe at "Sears" stunts minds early, puts youthful workers upon the scrap heap of industry before they are very far along in years. Human flesh is only so much fodder for the great machine that the big capitalists behind Sears, Roebuck & Co. have built up to win profits for its stockholders.

No grand jury has ever sought to measure the crimes

No grand jury has sver sought to measure the crimes of "Jake" Loeb and Albert H. Loeb against the working class. The labor-baiting states attornsy. Robert E. Crowe, will never bring their crimes before a grand jury or into court.

Only the workers and farmers, in the day that they establish their Soviet Rule, will consider these crimes worthy of judicial attention.

I am not so much interested in the verdict that will be rendered by Chief Justice John R. Caverly, in his silly black robes, dispensing capitalist justice upon the heads of two youthful victims of the social order which he uses all his power to uphold.

But I am interested in the fate that the workers and farmers will mete out to the social order of Judge Caverly and State's Attorney Crows, and the condemnation that will all upon the heads of its other upholders like Jacob Loeb and Albert H. Loeb.

Labor must Conquer Both Czar Morgan and the LaFollettes

By J. LOUIS ENGDAHL.

TODAY, the words of the Chicago banker, Richard W.

Wolfe, spoken at Sunday's gathed pe of the Illinois forces of the Conference for Progressive Political Action, keep rings in my ears. Banker Wolfe sald:

Banker Wolfe sald:

That the sald is a sald in the s

That means, if it means anything, that Banker Wolfewold choose to have a crar still rule over all the Russias. It means, if it means anything, that Banker Wolfewold choose to have a kaler rule over Cermany, and he is content with the rule of Crar Morgan in the United States. All Banker Wolfe would have Carr Morgan do would be to accept the "Counsels of wise and patriotic men," and Banker Wolfe's lold, right now, is Robert Marion LaFqliette, whom he calls "a cautious, prudent and constructive statesman."

whom he calls "a cautious, prudent ano constructive seasons."

Banker Wolfe also says that, "Whoever owns or controls the money and business of a country is in control of the government of the country." But Wolfe does not want the masses, the workers and farmers, to control the money and business, so they can control the government. No, his own words, he is contrent with the Morgan, if they Nicholars, a Kalleth kind counsels of a LaFoliette, and Wolfe's Ideal LaFoliette is one who would only have "the greed of business restrained."

greed of business restrained."

The tragic loke of it all is that men like Sidney Hillman, president of the Amalgamated Clothing Workers of America, sits thru this kind of a gathering, that not only lorates but applauds such ideas. Lt if LaFoliste were sected to the White House, but ideas.

For Sidney Hillman knows that if LaFoliste were sected to the White House, given a majority of the sented to the White House, given a majority of the sented to the White House, and tablest to boat, Morgan and Rockefeller, and Carry, and Schwab would split in his face and jeer at him. If that was not sufficient to cow him they would organize their forces, and run him and his crowd out office at the point of beyonets, and put in their own crowd. The idea of a dictatorahip of reaction did not originate when kinds the point of busyonets and put in their own crowd. The idea of a dictatorahip of reaction did not originate when him the final struggle of the dictatorahip of ged with the liberating dictatorahip of the oppressed, the LaFollettes are always on the side of the czars, the kaisers, the emperors.

lettes are always on the side of the czars, the kaisers, the emperors.

This LaFoliette of Banker Wolfe gives voice to another related hypocrisy. "That we are unalterably opposed to any class government, whether it be the existing dictatorship of plocrars of the control of th

many other British possessions.

**MacDonald, in England; Heritot, in France; Ebert and Scheidemann, in Germany, would rather destroy the workers' and farmers' hopes of a successful revolution, thru Soviet Rule, than destroy the capitalist system under which they are permitted to rule.

In this way they become the best allies of "corrupt business." They lead labor into new shambles. Communists say, tear the Dawes plan to shreds. The Communists say, tear the Dawes plan to shreds. The Tearly the Communists say, tear the Dawes plan to shreds. The Tearly the Communists say, tear the Dawes plan to shreds. The Tearly the Communist say, tear the Dawes plan to shreds. The Early the Communist say, tear the Dawes plan to shreds. The LaFollettes, once they get power, cease promising to give "wise counsel" to the Imperialist rulers and capitalist masters. Instead, they begin soft soaping and betraying the workers. That was the dirty job of Kerensky, in Russia, of the social-democracy in Germany, now of Herriot, in France, and, of MacDonald, in Great Britain, and on the morrow of a LaFollette in the United States.

The Russian czar had plenty of "wise and patriotic men" to give him counsel. The workers and peasants had to shake them all from their backs in order to win freedom. Big business does not lack LaFoilettes, in Germany, in France, and in England. Labor will have to dump them both, in all these countries, before it can follow in the footier of the control of the cont

And labor officials of the type of Sidney Hillman, president of the Amaigamated Clothing Workers of America, is helping give prestige to the present inauguration of this betrayal.

helping give prestige to the present inauguration of this betrayai.

"How do you feel in this crowd?" I asked Max Schwerin, a youthful enthusiast in the socialist party who fought the Johnston-Stone machine, singlehanded, at the Political Action, in his successful effort to put over an antimitariat resolution.

"It's hell." he said, "but we got to go along," voicing the blind sentiment of his feliow socialist.

I'll say, "It's hell."

It is hell for the workers and farmers to be compelled to continue suffering under the deliberate betrayal of such traitors.

But the workers and farmers will not go along.

Tens, perhaps hundreds of thousands, this year, and in the years ahead, millions upon millions, will desert the wise ocunsellors, the LaFoliettes, the handy men of big business, and join up with the Communist movement.

They will make their start this year by waging the fight for the Communist candidates william Z. Foster, for president; Benjamin Gitlow, for vice-president, the standard bearers of the American struggle to if this continent of all cars and kaisers, in common with their little business lackeys, for all time.

HOW THIS YANKEE House of Morgan Fears Beating of New Drums of War

By J. LOUIS ENGDAHL.

TODAY, the beating of war drums is again heard in West-

TODAY, the beating of war drums is again heard in Western Europe. On the tenth anniversary of the last great
war, Censral Nollet, the French minister of war, makes new
threats, this time, against Great Britain.

Ten years ago, today, cannonading began along the
banks of the Danube, following the declaration of war by
Austria upon Servia, for the assassination of the Austrian
heir apparant and his wife at Sarajevo. But the war spread
over all Europe, practically over all the world, drawing in
The structed finally decadoned into a great military in

Jupan as well as the United States.

The struggle finally developed into a great military tugof-war, between millions upon millions of armed humans, for
possession of the coal and iron, for the ownership of the
great industries of the Valley of the Ruhr.

TODAY, the soldlers of Franco occupy the Ruhr. Great
Britain and the House of Morgan, backed by the United
States government, ask France and her soldiers to get
out.

When the war drums beat today, they beat for the same reason that they rolled out their ominous portent ten years ago. In 1914 France and Germany faced each other for the supreme position in Europe, for its industrial overlorship. Today, in 1924, France faces Great Britain as she faced Germany, ten years ago.

Germany, ten years ago.

The "labor government" of J. Ramsay MacDonald prepares a displey of battisships, 40 miles long, for the benefit of the French diplomats in London, just as Kalser Wilhelm had his regular military maneuvers. In fact, ten years ago, on the eve of the war, the Kalser had his naval display in the North Saa, just as Premier MacDonald is having his

To be sure, it arouses the French. The French minister of war, Nollet, in London, hands in his resignation to Premier Herriot for the fourth time.

Minister of War Nollet refused to attend MacDonald's naval maneuver last Saturday at Spithead. Instead, he promised, that when Premier MacDonald next comes to Paris, he will prepare a military maneuver of 200,000 Febros tooldiers for the British "labor" premier. There is no love lost here.

To be sure, both the French and British can agree on placing the blame for most of their troubles on the shoulders of the American bankers. The borrowers are always able to unite against the lender. France and England can form a united front against the Wall Street loan sharks. But if Wall Street cannot force both France and England into substitution of the work o

It is very evident that the House of Morgan does not want war right now, between France and Great Britain Memories of ten years ago among the great masses of Western European workers, are still too vivid. No matter how keen the rivalries of French and British imperialism may be, the House of Morgan is trying to hold them in check.

may be, the House of Morgan is trying to hold them in check.

For Wall Street fears that new mobilizations in France and Great Britain, for new wars, may result in the grand mobilization of the working masses against their own governments, for the triumph of Workers' Rule against the capitalist rulers at home.

capitalist rulers at home.

Then the House of Morgan would be compelled to kiss'
"Good Bye" to all its investments in Europe, just as it bade
farewall to loans made to the czar when the Russian workers and farmers came into power.

There is good reason why J. Pierpont Morgan is hastening to Europe. He hears the roll of new war drums on the
tenth anniversary of the War of 1914, If war comes, it must
be the war that will mean the end of the House of Morgan.

Morgan as Peacemaker

IN OF MATERIA WAS A CHAPMARE!

Morgan and his agents intervened in the London
Conference, we are told, thus preventing a rupture between forat Britian and France. But for the hoty Morgan we would have war on our hands, so the implication runs. This is not a new the decking out of the chief war-makers with the medials of peace, for Morgan is only following il-lustrious precedents.

Negro Emancipation

In the propaganda for the Garrey project of restoring a "fatherland" for the Negro race in Africa, to which all Negroes shall return from all over the world, there is a curious mixture of error and sound insight.

and sound insight.

So far as concerns the population of Africa,
the masses living on that continent and performing the labor that makes it one of the great sources
of wealth of the world, there is no question that
'self-determination' is the inertiable goal of their
immediate struggle. The African masses must organize their own strength and, in alliance with
the aprising profestarians of the world, throw off
the chains of capitalist imperialism.

use canns of capitalist imperialism.

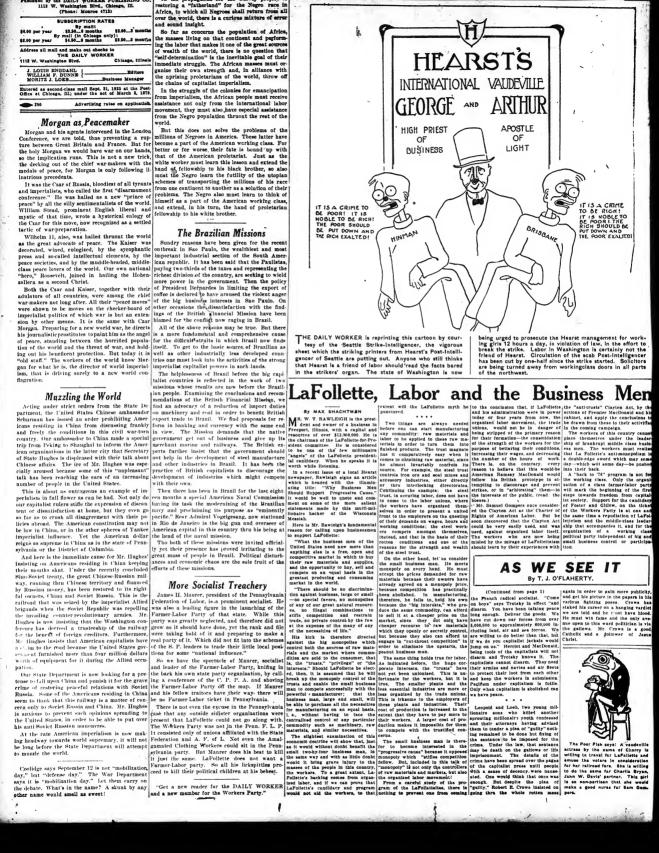

In the strnggle of the colonies for emancipation from imperialism, the African people must receive assistance not only from the international labor movement, they must also place especial assistance from the Negro population through the rest of the world.

world.

But this does not solve the problems of the millions of Negroes in America. These latter have become a part of the American working class. For better or for worse, their fate is bound'up with that of the American proletariat. Just as the white worker must learn this leason and extend the white worker must learn this leason and extend the inarctions precedents.

It was the Cara of Russia, bloodiest of all tyrants and imperialists, who called the first "disarrament reofference." He was halled as a new "prince of peace" by all the silly sentimentalists of the world. William Stead, prominent English liberal and mystic of that time, wrote a hysterical enloyy of the Cara for this move, now recognized as a settled tactic of warpreparation.

More Gold For Loeb HEGEWISCH SHOP Murder Trial; Sears Striking Workers Get Union Organizer Stock Goes To \$105

By J. LOUIS ENGDAHL

TODAY, shares of stock in Sears, Roebuck & Co. are selling at \$105.00 apiece. That's good—for Richard Loeb.
It means that the father, Albert H. Loeb, will have more
money to spend to eave his son, now on trial for murder,
from the noose.
In his confession, Loeb declared that the murder of
young Franks gave him pleasure, AND KEPT HIM BUSY.

"IF I HAD BEEN BUSY I MIGHT NOT HAVE DONE IT." It is the confession of a shirker.

Young Loeb's father is vice-president and treasurer Sears, Roebuck & Co., also a director. The tens of the ands of "Sears" slaves, and the millions of farmers we purchase the "Sears" products, at good prices, quality co

There is no union in the huge plants of the Sears, Rosbuck & Co., in Chicago, Seattle, Philadelphia, and Dallas, Texas. The workers are not permitted to organize. They are forced to toil the long workday, the year thru, in order that young Loeb might indulge himself in leisure, as he pleased. And he chose to murder to satiate the desire for a thrill.

Both Moody's "Rating Book Service." (1923), and the "Bankens" and investors' Manual" (1923-24) declare that the Sears, and investors' Manual" (1923-24) declare that the Sears, and order house in the world." Because the farmers got fairly good prices for their wheat in the war days, the profits of Sears, Roebuck & Co., in 1919, piled up to \$20,082,067,00, of which a goodly chunk went to the Loeb family. The Loeb family didn't get this because it aided in the processes of social production, it is a family of parasites, to business for several years. "Vide-opresidential attention to business for several years. "Vide-opresidential attention to business for several years. "Vide-opresidential attention to y decorative positions, drawing good salaries, but demanding no exertion.

ly decorative positions, drawing gove seasons.

Every day 75,000 pleces of mail come into the business offices of Sears, Roebuck & Co., from its 6,000,000 customers. All this mail is handled by young, nerve-wrecked stenographirs, file clerks, correspondence clerks, and other turn out the work demanded by "The Sears System." Boy and girls, young men and and young women of the working class are forced early into the "business machine order that all the children of Loeb, and all his kind, may new the search of the work

And the millions of farmers, out over the country, are today sweating and tolling, early and late, in the fields, in order that they may buy some of the necessities of life, from Sears, Roebuck & Co., because "Sears" sells cheap, all is oheap, and they sell in huge quantities, goods made in their own factories and shops, also non-union.

their own factories and shops also non-union.

In 1921 the shares of Sears, Roebuck & Co, stock sold down to \$60 spiece. But now they are up to \$105, nearly twice as much. The workers and farmers, who make the "Sears" stockholders rich don't know what "Sears" stockholders rich don't know what "Sears" stock to busy helping to coin dividende no up to the stock, and the stock, dividends on preferred stock, for stock dividends, all the dividends that help make the rich grow richer.

The slaves and victims of "The Sears System", thru their toil, kept young Loeb in iddeness and in luxury. In idleness, young Loeb had to have something to do, and so he turned to murder for excitement.

Young Loeb is now on trial for murder and it is the workers and farmers, thru their labors, who are paying for the so-called "Million Dollar Defense."

the so-called "Million Dollar Defense."

All this under the social order called "Copitalism". If
the workers and farmers like to go on being victimized under this social system, all they have to do is acquisese. But
if they want to help abolish this insane system, just as cray
as its products, Richard Loeb and Nathan Leopold, then they
can co-operate with the workers and farmers through the
vorid, daily increasing in numbers, who are marching forward in the struggle to build the new social order, the Communit Society, where classes will idappear, where all will
glady do useful ison and where no one will turn to wanton
murder to give a shrill to a life of idle luxury.

Forget Class in National Enemy.

"On the day of the finel viotory of the opprassed, this hetred will hold up to the scorn of mankind, without pity and without sentiment the Teutonic race, and this race will surely atone for its terrible eina thru many generations."

Coffee Up 10 Cents: Trust Blames It on Revolution in Brazil

By J. LOUIS ENGDAHL.

TODAY, the price of coffee has increased ten cents per pound. The house-wife, when she goes to the grocery store, if she is given any reason for this boost in price, will be told that it is because there is a revolution going on in Sac Paulo, a province of Brazil.

Three-fourths of the world's supply of coffee comes for the store of the world's supply of coffee comes for the store of the stor

In Chicago the city council committee or the high cost of living gets busy and calls for the usual silly "BOYCOTT" to keep prices down. The committee's secretary announces that Chicago uses 83,333 pounds of coffee per day, which means an added \$265,000 dropped into the pockets of the coffee trust, from this city alone.

We turn to the pages of the July 30th Issue of the New York Commercial. This is a house organ of the big corporations that profit in food. The house-wife doesn't read it. She gets no further than the comics, perhaps to the woman's page, and the account of the Loeb-Leopld murder trains page, and the account of the Loeb-Leopld murder trains on the "coffee actuation": "Rabbillion on the "coffee stuation": "Rabbillion on the "coffee stuation": "Rabbillion on Brazilian News; "Market Closed 27 to 37 Points Lower."

But the coffee trust is deaf, dumb and bilind to all this news. The coffee trust, like any other trust, is only awake to opportunities to increase the price of the commodity it deals in. The revolution in the Brazilian province of Sao Paulo had hardly gotten under way before the subsidized press began carrying progreganda predicting boosts in the price of coffee. The hand of the hungry profiter could easily be discerned in this. This propaganda was soon followed by the 10 cam price boost.

There is nothing new shout these renested birdway.

There is nothing new about these repeated highway beries of the big business bandits. It is all a part of the

robberies of the big business of the big busin

haps this has suppeu us pass.

There was a time when no coffee came from Brazil. But the profiteers had other excuses for increasing prices then. Arabis formerly supplied the world, later the West Indies, and then Java, way off in the Orient. But now these fields of coffee production have been supplanted by Brazil, in South America, many thousands of miles from Soviet Russia, and no coffee trust agents have as yet charged that the Sao Paulo revolution, that is dropping millions of dollars into their laps, is being engineered from Moscow.

their laps, is being eignessed from Moscow.

In fact, the Sao Paulo revolution is an uprising against the centralized authority in Rio Janeiro. And Sao Paulo is only one of the four big coffee producing provinces of Brazil, no trouble being reported from the other three.

There is no reason, therefore, for the boost in price of The control of the co

Indian Ocean might be used as an excuse for increasing the cost of "Java."

As a matter of fact, "The Chicago Journal of Commerce," July 31, in a New York dispatch, declares that. "The stock of 824,000 bags of coffee at Santos (Sao Paulo) is said to be largely low grade coffee and not suitable for the U. S. Trade."

Some day the workers and farmers will become as international as the big trusts. They will discover the "con" game that is being put over on them, of Brazil, will feel an identity of interest with the workers and farmers of the United States, who consume about one-half of all the coffee exported by the producing countries of the world.

The coup d'estat of the coffee, trust in boosting the price of this household necessity ten cents per pound should be a lithin should be some good. When the workers and tarmers. Thus it will do some good the should be some good and the profits of the profiteers of the world.

Snowden's Confession

Of all the dangerous "Bolaberiks" who rods in on the tide of the last Labor Party victory in Beg-land, none was more feared than Mr. Philip Baore-den. The state of the state of the state of the district of the state of the state of the state of the Chancellor of the Exchapper. But now Mr. Showden is no longer a mense or a mystery to the British capitalist class. In his new and mighty office Snowden has lost all ea-marks of a pink ishor evangelist or agitator. Mr. Showden has gone over the top for the London big hasiness interests.

FATE OF HEARST'S SCAB GOODS

Anti-Labor Hearst Post-Intelligencer Is Rubbish on the Highway.

This picture, taken pn Lake Burien Highway near Seattle, shows how the scab Post-Intelligencer is hated. The "P-I." circulation department wouldn't stop the paper when it was notified to do so. Accordingly the non-union sheet is decorating the asphalt as the Seattle Star did when out during the historic general strike of

Labor councils of the northwest and the Washingtor State Federation of Labor are backing the strikers and spreading the message that Hearst is unfair to organized

labor.

The DAILY WORKER is indebted for the above illustration to the Seattle Strike Intelligencer, organ of the striking composing room force. This militant sheet is gotten out in the same general form as the Post-Intelligencer.
